## The High Cost of Low-Quality Drilling Rods in Saudi Arabia

Saudi Arabia's Vision 2030 is pushing \$1.8 trillion into infrastructure projects, making drilling equipment critical. Yet cheap rods from unknown suppliers cost businesses 40% more in replacements - a 2023 industry survey shows Saudi contractors waste 14 working days/year fixing rod failures.

**Case Study:** A Riyadh road construction team used unbranded rods at 850 SAR/piece. They replaced 23 rods in 3 months, paying 150% more than initial quotes. Switching to certified brands saved them 35% in 6 months.

## Top 3 Drilling Rod Brands Dominating Saudi Arabia's Market in 2024

Atlas Copco (Sweden): 22% market share in KSA, offers 18-month warranties. Price range: 1,200-2,500 SAR/piece

XCMG (China): Top ROI choice for geothermal projects. Quotations start at 950 SAR/piece for bulk orders

## Why Certified Brands Outperform Cheap Alternatives

German-engineered rods handle Saudi's 50°C heat 3x longer than generic rods. Tests by Dhahran Tech Institute prove branded rods withstand 12,000 psi pressure vs. 8,000 psi for budget options.

## Price List & ROI Analysis: What to Expect in 2024

Current drilling rod costs in KSA:
