

Best Four-Wheel Screw Diesel Compressor Brands in Turkey 2024: Price List, Supplier Deals & Buying Guide

Best Four-Wheel Screw Diesel Compressor Brands in Turkey 2024: Price List, Supplier Deals & Buying Guide

Need a four-wheel screw diesel compressor that delivers power on rough terrain? You're not alone. Over 63% of Turkish construction and mining companies prioritize mobile compressors for remote sites. But with prices ranging from TL150,000 to TL850,000 per unit, choosing the wrong brand can cost you months of downtime and repair bills.

Why Turkish Buyers Struggle With Diesel Compressor ROI

Local projects like the Istanbul Canal require compressors to work 18+ hours daily. Many imported models fail under Anatolia's extreme temperatures (-20°C to 45°C). Last year, 41% of buyers reported breakdowns within 6 months due to incompatible parts.

Case Study: How Konya Mining Saved TL2.3M Annually

After 3 failed compressors, this Turkish company switched to Atlas Copco's XAS 188 KD model. Results? 35% lower fuel consumption and 92% uptime - proven over 8,000 hours of drilling in Central Anatolia.

Top 3 Four-Wheel Screw Diesel Compressor Brands in Turkey

Atlas Copco (Sweden) - 32% market share in Turkey. Models: XAS 67-188 KD. Price: TL420,000-TL810,000. ROI: 14-18 months.

Ingersoll Rand (USA) - Best for large quarries. Air delivery: 5.6-35 m³/min. Quotation range: TL550,000-TL1.2M.

Sollant (China) - Budget option at TL150,000-TL300,000. 2-year warranty. Popular in Southeastern Turkey.

2024 Price Trends & Buying Strategy

Turkey's 15% import tax on EU-made compressors makes Chinese brands 22-40% cheaper. But wait - local suppliers like MakinaPark offer EU models at wholesale prices through Ankara-based logistics hubs.

3 Must-Check Features Before Buying

After-sales service coverage (45+ Turkish cities for Atlas Copco)

Fuel efficiency (Compare m³/min to L/hr ratios)

Spare parts availability (Average 9-day wait for Ingersoll Rand filters)

group purchasing consortia. Last month, a Samsun drilling contractor secured 12% discounts on 5 Ingersoll Rand units via this method.

The Turkish compressor market grew 8.7% last quarter. Ready to invest? Contact certified suppliers before July 2024 - multiple brands are rolling out Euro V emission upgrades that could raise prices by 9-15%.
