But here's the shocker: 42% of buyers regret their purchase within 6 months due to hidden costs and poor after-sales service.

## The Real Cost of Cheap Units

Last year, a Colombo-based contractor lost 1.2 million LKR in downtime after their budget compressor failed during a highway project. Typical repair costs? 35,000-75,000 LKR per incident. That's why smart buyers compare price per hour of operation, not just upfront quotes.
