## The GBP2.7 Billion Problem: Why Choosing the Wrong Compressor Hurts UK Businesses

A 2024 industry report by Statista shows UK demand for diesel air compressors jumped 12% since 2022. But 35% of buyers regret their purchase within 6 months due to breakdowns or hidden costs. ## Red Flags to Avoid

- o Unrealistically cheap price per piece (below GBP2,500 for 10+ CFM models)
- o No UK-based service centers
- o Missing CE/ISO certifications
