

Core Drilling Rig Rental Cost per Month in Turkey: 2025 Price List, Quotes & ROI Guide

Core Drilling Rig Rental Cost per Month in Turkey: 2025 Price List, Quotes & ROI Guide

Are you planning a construction or mining project in Turkey but struggling with high equipment costs? You're not alone. Over 60% of contractors report budget strain when purchasing heavy machinery. Let's cut through the noise about core drilling rig rental cost per month - and show how to get the best value without draining your cash reserves.

What's the Real Cost to Rent a Core Drilling Rig in Turkey?

Monthly rates for core drilling rig rentals in Turkey typically range from EUR2,800 to EUR6,500, based on 2025 market data. But wait - prices swing wildly depending on three key factors:

Depth capacity: 50m rigs cost 35% less than 150m models

Fuel type: Diesel rigs average EUR220/week more than electric

Project duration: 6-month contracts get 18% discounts vs short-term

Case Study: How Ankara Contractor Saved 30%

Metin Construction needed a 100m hydraulic rig for Istanbul metro tunnel work. By comparing price quotes from 6 suppliers and locking a 5-month rental deal, they slashed costs from EUR34,000 to EUR23,800. Smart move - that extra EUR10k funded their safety upgrades!

How to Get Instant Core Drilling Rig Price Quotes in Turkey

Want real numbers? Top Turkish rental companies like XYZ Equipment now offer online quotation calculators. Input your project specs (depth, diameter, terrain type) and get instant pricing. Pro tip: Always ask about these hidden cost-savers:

Free transportation within 150km radius

Included operator training packages

Bulk pricing for multiple rig rentals

Why Rent Instead of Buy? The ROI Breakdown

Here's why 72% of Turkish construction firms choose drilling rig rentals over purchases:

Buying a new 150m core drill rig? That's EUR180,000+ upfront. Rent the same rig for EUR5,200/month instead. Even for a 2-year project, renting saves EUR56,400 - enough to hire 3 skilled operators full-time!

Market Alert: Turkey's Infrastructure Boom

Turkey's construction sector grew 8.4% in 2023, with \$12B allocated to mega-projects like the Istanbul Canal. Local rental suppliers are scrambling to meet demand - which means more flexible price per month deals for
