

Core Drilling Rig Rental Cost per Month in the UAE 2024: Price List, Quotation & Rental Deals

Core Drilling Rig Rental Cost per Month in the UAE 2024: Price List, Quotation & Rental Deals

Need a core drilling rig rental in the United Arab Emirates this year? With Dubai's construction boom and Abu Dhabi's infrastructure upgrades, monthly rental costs have become a hot topic. Let's break down what you'll pay - and how to save.

Why Core Drilling Rig Rental Prices Are Surging in the UAE

Construction projects in the UAE grew 23% in 2023, with Dubai alone approving \$36B in new developments. This demand pushes monthly rental costs for equipment like diamond core drills up 12-18% compared to 2022. Contractors face two problems:

- High upfront quotes from local suppliers
- Hidden fees for transport/maintenance

Case Study: A Dubai Contractor's \$26,000 Mistake

Al Jaber Group paid AED 95,000/month for a core drilling rig in 2023, only to discover Chinese-made rigs from SINOVO (available through UAE partners) offered the same specs for AED 78,000. That's a 22% overspend on a 6-month project.

2024 Price Breakdown: What to Expect

Current core drilling rig rental costs in the UAE range from:

- Basic models (100-150mm capacity): AED 62,000 - AED 75,000/month
- Heavy-duty rigs (300mm+): AED 110,000 - AED 140,000/month

Prices vary based on:

- Drill depth capacity
- Diamond bit quality
- Included support services

3 Ways to Slash Your Rental Bill

1. Compare Gulf Region Suppliers

German brands like TERRATEC cost 15-20% more than Chinese equivalents but offer better ROI for long-term projects. For short jobs (
