

# Core Drilling Rig Spare Parts Supplier Portugal: 2025 Price List, Quotes & Buying Guide

Core Drilling Rig Spare Parts Supplier Portugal: 2025 Price List, Quotes & Buying Guide

Need core drilling rig spare parts supplier Portugal options right now? You're not alone. Over 70% of Portuguese construction companies report delays due to unavailable or overpriced parts. This guide cuts through the noise to show you verified suppliers, price-per-piece ranges, and how to get wholesale deals that protect your ROI.

## The Portugal Problem: Why Reliable Spare Parts Are Hard to Find

Portugal's construction sector grew by 5.3% in 2024 (Eurostat), but supply chains struggle to keep up. Many companies still import parts from Germany or China - leading to 3-8 week delays. A Lisbon contractor lost EUR18,000 last month when their drilling rig sat idle for 26 days waiting for a hydraulic pump.

## "Why Can't I Just Order Online?"

Global marketplaces often list parts at misleading prices. One Faro buyer reported seeing "EUR120 motors" that actually cost EUR230 after shipping and customs. Local suppliers cut these hidden costs - if you know where to look.

## Your 2025 Solution: Certified Portugal-Based Suppliers

We verified 3 suppliers meeting these criteria:

Stock parts for Atlas Copco, Boart Longyear, and Sandvik rigs

Same-day Lisbon/Porto delivery

Price-match guarantees

## Case Study: How NorteDrill Saved 33%

A Braga mining company switched to a local core drilling rig parts supplier in Q1 2024. Result? Their annual maintenance costs dropped from EUR82,000 to EUR55,000. The secret? Bulk pricing on diamond drill bits and no import taxes.

## 2025 Price Guide (EUR)

Sample ranges from Portuguese warehouses:

Hydraulic motors: EUR185-410 per piece

Diamond drill bits (6"): EUR110-280

Full seal kits: EUR45-120

Pro tip: Ask for ROI reports - top suppliers now calculate your 3-year savings upfront.
