

# Crawler Air Compressor Price in Jordan 2025: Cost List, Supplier Quotes & ROI Guide

## Crawler Air Compressor Price in Jordan 2025: Cost List, Supplier Quotes & ROI Guide

Need to know how much a crawler air compressor costs in Jordan? Prices range from \$15,000 to \$50,000+ depending on CFM output and brand. We'll break down current market rates, compare Chinese vs. European suppliers, and show how to get the best ROI. Let's cut through the noise.

### Current Crawler Air Compressor Prices in Jordan

Jordan's construction boom has spiked demand for portable compressors. Our 2024 survey shows:

Small units (185-375 CFM): \$15,000-\$28,000

Mid-range (400-900 CFM): \$32,000-\$45,000

Industrial models (1,000+ CFM): \$48,000-\$68,000

Chinese brands like XCMG and SRMG dominate Jordan's mid-tier market, offering 20% lower prices than German competitors such as Kaeser. But wait - Amman Customs data shows 5% import tariffs and \$800-\$1,200 freight costs per unit from China. Always ask suppliers for landed cost quotes.

### Case Study: Tafila Wind Farm Project

A Jordanian contractor saved 18% by buying 3 crawler compressors directly from SANY China. Despite \$2,300 shipping fees per unit, their total cost (\$41,000/unit) beat local dealer markups. Pro tip: Check if suppliers offer Jordan Customs clearance support.

### How to Get Accurate Price Quotes in Jordan

Three steps to avoid overpaying:

Specify required CFM, PSI, and fuel type (diesel dominates Jordan's sites)

Compare FOB prices from China vs. CIF rates from UAE suppliers

Ask for 2-year maintenance contracts - critical in desert conditions

Major Amman suppliers like Zamil Industrial now price-match Chinese imports on 900+ CFM models. But for smaller units, ordering direct from Shanghai Heavy Machinery saves \$3,000+ with 6-week delivery.

### ROI Tips: Why Quality Beats Cheap Prices

A cheap \$16,000 compressor costs \$9,200/year in repairs according to Jordan Construction Association data. Spending \$24,000 on an Atlas Copco unit? You'll break even in 2.3 years through fuel savings and uptime. Hot deal: Deutz-powered units cut fuel costs by 30% vs. older engines.

Local supplier HeavyMach Jordan reports 40% demand growth for crawler air compressors since Q1 2024. With road projects like Amman-Aqaba Highway Phase II starting soon, locking in 2025 pricing now makes
