

# DTH Drilling Rig Rental Cost per Month in Jordan: 2025 Price List, Quotations & ROI Guide

DTH Drilling Rig Rental Cost per Month in Jordan: 2025 Price List, Quotations & ROI Guide

Need a DTH drilling rig for your project in Jordan? Whether you're exploring minerals or digging water wells, renting equipment saves upfront costs. This guide breaks down the rental cost per month in Jordan, price trends, and how to secure the best supplier deals. Let's jump in.

### Why Rent a DTH Drilling Rig in Jordan?

Jordan's growing infrastructure projects - like the National Water Carrier pipeline - demand efficient drilling solutions. Buying a DTH rig outright costs \$200,000-\$600,000, plus maintenance fees. For short-term projects, renting cuts expenses by 30-50%. But prices vary wildly. Here's what you need to know.

### Current DTH Rig Rental Costs in Jordan (2025 Data)

Most suppliers charge \$8,000-\$18,000 per month based on:

- Depth capacity (300m vs. 800m rigs)
- Engine power (diesel vs. electric)
- Add-ons: Compressors, hammer bits

A Chinese-made 800m DTH drilling rig rents for \$12,500/month in Amman. Local operators like Jordan Drill Masters offer bundled packages with operator fees (\$1,200 extra/month). Always compare quotes!

### The Hidden Costs That Slash Your ROI

Last year, a cement company in Aqaba paid \$14,000/month for a rig... then got hit with a \$3,200 transport fee. Others face downtime costs when parts break. Reliable suppliers matter. Look for:

- Free maintenance agreements
- Replacement guarantees
- Transparent fuel/operator charges

### Case Study: Saving 40% on a 6-Month Project

Matrix Construction rented a 500m DTH rig from Egypt-based DrillPro for \$9,800/month. Total savings vs. buying: \$217,000. Their secret? Negotiating a long-term discount and getting 3 spare hammer bits included.

### How to Rent Smart in 2024

Follow these steps:

- Get 3-5 quotes from local and international suppliers (Germany-made rigs cost 25% more but last longer)
- Check equipment availability - demand spikes during Jordan's dry seasons (March-July)
