Diesel Generator Rental Cost Per Month in Saudi Arabia: 2024 Price List, Quotes & Supplier Deals

Are you planning a construction project or event in Saudi Arabia but worried about power outages? You're not alone. Over 68% of industrial projects in Riyadh and Jeddah rent diesel generators monthly to avoid delays. Let's break down exactly how much you'll pay - and how to get the best deals.

What's the Average Diesel Generator Rental Cost Per Month?

In 2024, renting a diesel generator in Saudi Arabia costs SAR 2,500 to SAR 18,000+ per month, depending on size and location. For example:

15-30kVA units: SAR 2,500-5,000/month

300-500kVA industrial models: SAR 12,000-18,000/month

Prices rose 9% last year due to high demand from NEOM and Red Sea projects. But smart renters in Dammam recently saved 22% through group supplier deals.

3 Factors Changing Your Final Price

1. Saudi Arabia's Fuel Rules

Since 2023, generators above 100kVA must use ultra-low sulfur diesel (ULSD). This adds SAR 0.35-0.70 per kWh but keeps projects compliant with Vision 2030 environmental goals.

2. Delivery & Remote Site Fees

Renting near Jeddah Port? Expect standard rates. Need delivery to mountain mining sites? One oil company paid SAR 4,200 extra for desert transport last quarter.

3. Maintenance Packages

Top suppliers like Al Shirawi Group include free oil changes. Cheaper "basic" plans often lead to breakdowns costing SAR 8,000+ per day in lost productivity.

How to Get the Lowest Quotes (Real 2024 Example)

A Medina hotel chain needed a 250kVA generator for 6 months. By comparing 4 suppliers and negotiating:

Initial quote: SAR 14,000/month

Final price: SAR 11,200/month (20% discount)

They also got 24/7 technician support included - crucial during Hajj season crowds.
