Drilling Bit Cost in Singapore 2024: Price List, Supplier Quotes & Buying Guide

Are you frustrated by unclear pricing when buying drilling bits in Singapore? You're not alone. Over 65% of local construction firms report wasting hours comparing fragmented quotes. Let's cut through the noise - here's exactly what you'll pay, why costs vary, and how to secure the best deals this year.

What Determines Drilling Bit Prices in Singapore?

Prices swing wildly from S\$100 to S\$1,500+ per piece. Three factors control your final cost:

Bit type: Diamond-coated bits cost 3x more than standard tungsten carbide

Size matters: 12mm bits start at S\$80, while 100mm models hit S\$1,200

Brand wars: German-made Herrenknecht bits cost 40% more than Chinese alternatives

2024 Market Shock: Chinese Imports Flooding Singapore

Singapore imported 28,000 drilling bits from China in Q1 2024 - a 17% jump from last year. While this pushes prices down, quality control remains a gamble. Top suppliers like Bosch and Atlas Copco now offer "budget tiers" to compete.
