

Drilling Bit Rental Cost per Month in Jordan 2025: Price List, Quotation & Supplier Deals

Drilling Bit Rental Cost per Month in Jordan 2025: Price List, Quotation & Supplier Deals

Did you know that drilling bit rental cost per month in Jordan can save oil and mining companies up to 40% compared to buying new equipment? With Jordan's growing oil exploration projects, smart businesses are switching to rental solutions. But how do you find the best deals? Let's break it down.

Why Rent Drilling Bits in Jordan?

Jordan's oil shale reserves rank 7th globally, with over 30 active drilling sites. Buying premium drilling bits outright costs \$15,000-\$50,000 per piece - a heavy upfront investment. Monthly rentals start at \$900-\$2,500 depending on bit type (PDC, tricone, or diamond-coated). For 6-month projects, that's \$5,400-\$15,000 total - way below purchase prices.

Case Study: Najaf Company's 30% Cost Cut

In 2024, Amman-based Najaf Drilling rented 8 PDC bits for 4 months instead of buying. Result? They saved \$92,000 and redirected funds to safety upgrades. "Renting gave us flexibility when project timelines shifted," said Project Manager Omar Hassan.

2025 Price Trends for Drilling Bit Rentals

Jordan's drilling bit rental cost per month dropped 12% since 2023 due to:

- New Chinese suppliers entering the market
- Government tax breaks on industrial rentals
- Local workshops offering maintenance packages

Current average prices (USD/month):

- PDC Bits: \$1,200-\$1,800
- Tricone Bits: \$900-\$1,400
- Diamond-Coated Bits: \$2,100-\$2,500

How to Get the Best Quotation in Jordan

Top suppliers like Rotab Middle East and Atlas Rentals Jordan now offer:

1. Custom contracts (3-24 months)
2. Free transport within 100 km of Amman
3. Damage waiver insurance (\$50-\$150/month)

Pro Tip: Ask for bundled pricing if renting over 5 bits - most suppliers offer 8-15% discounts. One Chinese

company, SinoDrill, even provides Mandarin-speaking technicians at no extra cost.

Watch Out for Hidden Fees

Always check if quotes include:

- Bit sharpening/replacement cycles
- Emergency service response time
- Penalty rates for late returns

In 2024, 23% of Jordanian renters reported surprise charges averaging \$380/month. Stick with ISO-certified suppliers to avoid this.

ROI-Boosting Rental Strategies

If you're working in Jordan's oil sector near Ma'an or Azraq, consider:

- o Short-term rentals during exploratory phases
- o Long-term contracts for production drilling
- o Hybrid models (rent specialty bits, buy common ones)

Jordan's National Resource Authority predicts a 15% rise in drilling activity by Q3 2025. Partnering with reliable suppliers now ensures you're ready to scale operations without budget shocks.
