Why Drilling Hammer Rental Costs Vary in Malaysia (And What You Pay For)

A typical drilling hammer rental cost per month in Malaysia ranges from RM 800 to RM 2,500. Why such a big difference? Three factors dominate:

Hammer type: Top-tier German hydraulic models cost 30% more than Chinese pneumatic variants

Project scale: Bulk rentals (10+ units) often get 15% discounts through supplier partnerships

Maintenance terms: 78% of contractors pay extra for "all-inclusive" packages covering repairs
