Engineering Drilling Rig Rental Cost per Month in UAE 2025: Price List, Quotes & Supplier Deals

Need an engineering drilling rig for your UAE construction project? The rental cost per month could save you 40% compared to buying. We'll break down why renting beats purchasing, current market rates, and how to lock in the best deals.

Why Rent Instead of Buy? UAE Contractors Share the Math

Over 65% of construction firms in Dubai and Abu Dhabi now rent engineering drilling rigs monthly. Here's why:

Upfront purchase cost: \$220,000+ for mid-size rigs

Average rental price per month: \$6,800-\$12,500

Maintenance savings: \$2,300/month avoided

"We freed up capital for 3 new projects by switching to rentals," says Ahmed Al-Mansoori from Desert Sands Infrastructure.

The Hidden Costs of Ownership (That Rentals Fix)

Storage fees at UAE ports (+\$1,100/month). Import taxes (5% of rig value). Downtime during equipment repairs. Renting shifts these risks to suppliers.

Current engineering drilling rig rental costs in the Emirates:
