Four Wheel Screw Diesel Compressor Rental Cost Per Month Pakistan 2025: Price List, Quotation & Supplier Deals

Why Rent a Four Wheel Screw Diesel Compressor in Pakistan?

Pakistan's construction and mining sectors are booming - four wheel screw diesel compressors are in high demand. But buying one outright costs PKR 2.5M+ (~\$8,950), plus maintenance fees. Renting cuts upfront costs by 60-80%, making it the smart ROI move for contractors and oil/gas projects.

Market Trends Driving Rental Demand

Over 87% of Pakistani businesses now rent heavy machinery due to:

- New CPEC infrastructure projects (2025 deadline)
- PKR depreciation against USD (9% since 2023)
- Imported compressor shortages from China/Germany

Four Wheel Screw Diesel Compressor Rental Cost in Pakistan: 2025 Guide

Monthly rental cost per month ranges PKR 140,000-420,000 (\$500-\$1,500) depending on:

- Airflow capacity: 250 CFM models cost PKR 140K/mo vs. 600 CFM at PKR 410K
- Fuel efficiency: Screw vs. piston compressors save 18% on diesel
- Supplier reputation: Top Karachi/Lahore vendors offer free maintenance

Case Study: Lahore Highway Project Saved PKR 7.2M

MK Constructions rented a 400 CFM screw diesel compressor for 8 months (PKR 210K/mo) instead of buying. Total spend: PKR 1.68M vs. PKR 8.9M purchase price + PKR 640K yearly upkeep. 40% cost reduction let them bid for 3 more government tenders.

How to Get the Best Rental Quotation

Follow this checklist when comparing suppliers in Pakistan:

- Ask for breakdowns: Transport, fuel, and repair clauses
- Check duty status - avoid 35% import tax on China/UK machines
- Verify warranty on rotor assemblies (3,000+ hour lifespan)

Supplier Spotlight: Atlas Copco vs. Local Vendors
