

Four Wheel Screw Diesel Compressor Rental Cost in Jordan: 2024 Price List & Supplier Deals

Four Wheel Screw Diesel Compressor Rental Cost in Jordan: 2024 Price List & Supplier Deals

Need a four wheel screw diesel compressor for your construction or mining project in Jordan? Renting this heavy-duty equipment could save you 30-50% compared to buying new. This guide breaks down monthly rental costs, trusted suppliers in Amman and Aqaba, and tips to lock in the best prices.

Why Rent a Four Wheel Screw Diesel Compressor in Jordan?

Jordan's construction sector grew by 4.7% in 2023 (Central Bank of Jordan data), driving demand for mobile air compressors. Here's why renting makes sense:

Cost Control: Avoid upfront payments of \$15,000-\$25,000 for new units

No maintenance headaches - suppliers handle repairs

Flexible terms from 1 month to 12+ month contracts

Current Rental Prices: What to Expect

Average monthly rental costs for four wheel diesel compressors in Jordan range:

Small units (250-350 CFM): \$1,200-\$1,800/month

Mid-size (500-750 CFM): \$2,400-\$3,500/month

Large industrial (900+ CFM): \$4,000+

For comparison, UAE contractors pay 15-20% higher rates. Prices vary based on:

- Engine power (HP)
- Air delivery (CFM/Bar)
- Rental duration

Case Study: Amman Road Project Cuts Costs by 37%

A Jordanian contractor saved \$8,200 monthly by renting two four wheel screw compressors instead of purchasing. Their 6-month rental deal included free transport and 24/7 technical support.

How to Get the Best Rental Deal in Jordan: 3 Tips

Compare quotations from at least 3 suppliers

Ask about discounts for 6+ month contracts

Verify equipment service history - well-maintained units reduce downtime

2024 Market Trends Impacting Compressor Rental Costs

1. Government infrastructure spending: Jordan allocated \$2.1 billion for transport projects in 2024, increasing

Four Wheel Screw Diesel Compressor Rental Cost in Jordan: 2024 Price List & Supplier Deals

equipment demand.

2. Diesel price fluctuations: Current rate of 0.85 JOD/liter (+2.4% from 2023) affects operational costs.
3. Competitive supplier landscape: Over 15 certified providers now operate nationwide.

Major suppliers like Jordan Heavy Machinery and Atlas Copco Jordan offer online price calculators and same-day quotations. Some even provide free operator training with long-term rentals.

Pro Tip: Book 60-90 days before your project starts. Summer (June-August) sees 20% higher demand from mining and quarrying sectors.
