## Four Wheel Screw Diesel Compressor Rental in China 2025: Monthly Cost, Price List & Supplier Deals

Need a four wheel screw diesel compressor for your construction project in China? You're not alone. Over 65% of infrastructure companies in Guangdong and Jiangsu provinces now rent heavy equipment monthly instead of buying. Why? Let's break down the rental cost per month in China, updated price trends, and how to get the best supplier deals.

### Why Renting Beats Buying in 2025

Construction giants like China Communications Construction Company (CCCC) saved up to JPY400,000/month by renting four wheel screw diesel compressors for the Yangtze River bridge project. Here's the math:

Purchase cost: JPY1.2-1.8 million per unit

Monthly rental price: JPY18,000-35,000 (maintenance included)

With China's infrastructure spending hitting JPY15.9 trillion in 2024, short-term projects (3-12 months) make rentals 3x more cost-effective than purchases.

### The Hidden Costs of Cheap Rentals

A Shanghai-based contractor learned this the hard way. They chose a JPY12,500/month compressor from an unverified supplier. Result? 14 days of downtime from engine failures and JPY230,000 in penalties. Always verify:

ISO 9001-certified suppliers

Free on-site maintenance

Fuel efficiency guarantees (look for 8-10L/hour models)

### 2025 Rental Price List: China vs Global

China's four wheel screw diesel compressor rental cost per month is 18-30% cheaper than Europe due to local manufacturing. Compare:

## How to Negotiate Better Deals

Hunan Roadway Group secured a 22% discount by:

- Renting 6+ units for a 9-month tunnel project
- Paying 50% upfront in CNY
- Sharing equipment GPS data with the supplier

Top suppliers like SANY and XCMG offer loyalty programs - 2 free weeks for every 10 months rented.
