Screw Diesel Air Compressor Rental Cost Per Month in Uzbekistan 2025: Price List, Quotation & ROI Guide

Why Construction Firms in Uzbekistan Are Renting Screw Diesel Air Compressors

Need reliable air power for mining or construction projects in Uzbekistan? Buying a screw diesel air compressor upfront costs \$15,000-\$50,000. Ouch! Plus, maintenance, fuel, and storage eat into budgets. Smart businesses now rent instead. Here's why:

The Problem: High Upfront Costs + Hidden Expenses

A Tashkent-based contractor shared: "We spent \$28,000 on a new compressor last year. Then repairs cost \$2,300 in 6 months. Now it sits idle 60% of the time." Sound familiar?

Purchase price: \$15K-\$50K

Annual maintenance: \$1,800-\$4,500

Storage/transport: \$200-\$500/month

2025 Rental Cost Trends in Uzbekistan

Data from Tashkent Rental Hub shows monthly rates for screw diesel air compressors dropped 12% since 2023. Why? More Chinese suppliers like SCME and Sinocoredrill entered the market.

Sample price list:

7.5kW unit: \$380-\$520/month

22kW industrial model: \$750-\$1,100/month

Custom mining setups: \$1,300+/month

Case Study: Samarkand Mining Project Saves 30%

A copper mine leased three 30kW compressors for 8 months instead of buying. Total cost: \$24,600. Purchase price would've been \$92,000. Saved \$67,400! Plus, free maintenance was included.
