

# Screw Diesel Air Compressor Rental Cost per Month in South Korea 2025: Price List, Quotation & ROI Guide

Screw Diesel Air Compressor Rental Cost per Month in South Korea 2025: Price List, Quotation & ROI Guide

Need a screw diesel air compressor in South Korea but don't want to buy one? You're not alone. Over 65% of construction and manufacturing companies in Korea now prefer renting heavy equipment monthly to avoid upfront costs. Let's break down the latest rental cost trends and how to get the best deal.

Why Rent a Screw Diesel Air Compressor in South Korea?

South Korea's industrial sector grew 4.2% in 2024, with Busan and Incheon leading demand for portable power solutions. A typical 20-30 CFM diesel screw compressor rents for KRW1.8-KRW3.5 million/month (\$1,350-\$2,600), depending on these factors:

- Engine power (e.g., 15HP vs. 30HP models)
- Rental duration (discounts for 6+ month contracts)
- Fuel efficiency (newer models cut diesel costs by 40%)

Real Case: Hyundai E&C Saved KRW220 Million Annually

Hyundai Engineering & Construction switched to renting Atlas Copco compressors in 2023. Their Ulsan shipyard project cut equipment costs by 34% compared to purchasing, while maintaining 99% uptime through supplier-managed maintenance.

2025 Price List for Top Rental Suppliers

Compare these monthly rates from trusted suppliers in Seoul and Gyeonggi Province:

- Doosan Portable Air Compressor (22 CFM): KRW2.1M/month
- Kaeser Diesel Series (30 HP): KRW2.8M/month
- Atlas Copco XAS 37 JD: KRW3.4M/month (includes free filters)

Pro Tip: Ask for wholesale quotes if renting 3+ units. Major suppliers like Doosan Infracore offer 15-20% bulk discounts.

3 Ways to Slash Your Rental Costs Today

1. Negotiate maintenance clauses - 72% of Korean renters overlook free service inclusions
2. Compare price per kWh efficiency - New Kaeser models use 2.1L/hour vs older 3.5L/hour

3. Time your rental - Prices drop 18% during winter (Dec-Feb) in non-freezing regions

## Government Incentives Alert

South Korea's 2025 Green Industry Plan offers KRW500,000/month tax rebates for renting EURO VI-certified compressors. Confirm if your supplier participates - this could cut your net cost by 19-23%.

Last month, a Gwangju auto parts factory secured a 6-month screw compressor rental at KRW1.65M/month (usually KRW2.1M) by combining bulk pricing and ECO subsidies. The lesson? Always request customized quotations - don't settle for standard rate cards.
