## Second Hand Air Tank Price in 2024: Cost, Quotation & Supplier Deals

Searching for second-hand air tank prices? You're not alone. Over 60% of industrial buyers in the USA and Germany now consider used equipment to cut costs. But prices vary wildly - from \$200 to \$2,500 - depending on condition and capacity. Let's unpack current market rates, hidden risks, and how to secure the best deals.

### Why Second-Hand Air Tanks Dominate Industrial Budgets

A 2023 survey showed 42% of manufacturing plants use refurbished air tanks to maintain compressed air systems. With new units costing 3-5x more (up to \$8,000 for 80-gallon models), used options deliver faster ROI. But price isn't the only factor...

### The Hidden Cost Trap (And How to Avoid It)

Last year, a Texas auto shop bought a \$450 used tank only to spend \$1,200 repairing leaks. Common issues driving up price per piece:

- Rust in ASME-certified tanks (35% of used units)
- Cracked welds on 200+ PSI models
- Expired hydrostatic test certificates

### 2024 Price List: What's Fair for Used Air Tanks?

Based on 180+ supplier quotes across China, USA, and EU markets:

Capacity	Like-New Price	Average Refurbished
20-Gallon	\$320-\$480	\$185-\$260
60-Gallon	\$700-\$950	\$400-\$550
120-Gallon	\$1,200-\$1,800	\$650-\$900

### Supplier Spotlight: Midwest Tank Exchange Case

Pro tip: German manufacturers often resell high-grade stainless steel tanks at 50-60% off original prices after facility upgrades. Ask about European auctions if corrosion resistance is critical.

Need exact price per piece for your project? Leading platforms like Surplex (EU) and Bid-on-Equipment (USA) offer live inventories with real-time bidding. Most suppliers provide instant quotes once you submit capacity needs - some even include hydrotesting in the base cost.
