

Second Hand Air Tank Price in Morocco 2025: Cost, Suppliers & Buying Guide

Second Hand Air Tank Price in Morocco 2025: Cost, Suppliers & Buying Guide

Why Bargain Hunters Target Second Hand Air Tanks in Morocco?

Need compressed air solutions but shocked by new equipment prices? You're not alone. Over 67% of Moroccan workshops and construction firms now prefer second hand air tanks to cut costs. With industrial demand rising 18% since 2023 (Moroccan Ministry of Industry data), smart buyers are turning to refurbished units priced 30-50% below new models. Let's explore how to navigate this booming market.

Current Price Benchmarks: What's Fair?

A standard 100-liter used air tank in Casablanca sells for 2,800-4,200 MAD (\$280-\$420), while 500-liter industrial units range from 11,000-17,000 MAD. Prices vary due to:

Brand reputation (Atlas Copco vs Chinese imports)

Testing certifications (CE/PED/ASME)

Local vs imported stock (German/Chinese suppliers dominate)

3 Money-Saving Case Studies From Moroccan Buyers

Marrakech Textile Factory Saved 40%

Ahmad's team replaced 3 faulty air tanks with refurbished Ingersoll Rand units from Tangier - 137,000 MAD total vs 228,000 MAD for new. ROI achieved in 14 months through uninterrupted production.

Agadir Auto Repair Shop Doubled Capacity

By purchasing two second-hand air compressor tanks from a closed Fez factory, Youssef expanded his garage's capacity without loans. Total cost: 23,500 MAD (including pressure testing).

2025 Market Trends Impacting Your Purchase

Morocco's renewable energy push now offers tax breaks for companies using eco-upgraded equipment. Many EU-certified suppliers like Italy's ABAC and China's DENAIR now offer:

1. Customized quotations with 2-year warranties
2. Bulk purchase discounts for 5+ units

Smart Buying Checklist: Don't Skip These Steps!
