

Second Hand Air Tank for Sale in Chile: Price List, Supplier Quotes & ROI Guide (2024)

Second Hand Air Tank for Sale in Chile: Price List, Supplier Quotes & ROI Guide (2024)

Need an air tank for construction or mining work in Chile, but worried about cost? You're not alone. Industrial buyers across Santiago, Antofagasta, and Valparaiso face a 43% price hike for new compressors since 2020. But here's the game-changer: second hand air tanks now offer 50-70% savings while meeting Chile's NCh-ISO 1217 performance standards. Let's break down price per piece trends, ROI cases, and trusted suppliers.

Why Chile's Market Demands Affordable Air Solutions

Chile's mining sector requires 8,000+ compressed air units annually. However:

- New 500L tanks cost \$1,800-\$2,400 USD (2024 quotes)
- Used units sell for \$550-\$900 USD with 2-year warranties
- Chinese imports dominate 68% of Santiago's supply

Case Study: Copper Mine Cuts Costs 63%

A Copiapo-based operation replaced 12 aging units with certified second hand air tanks. Total spend: \$7,200 vs. \$19,500 for new models. Maintenance costs dropped 22% due to simpler designs.

2024 Price Guide: What to Expect in Chile

Prices vary by condition, brand, and supplier location:

- 200L vertical tank (used): \$320-\$480 USD
- 500L horizontal model: \$675-\$850 USD
- Customized ASME-certified units: \$1,100+ USD

3-Step Buying Checklist

1. Verify seller certifications (look for ISO 9001 or SIC Mark)
2. Test pressure valves - most refurbished tanks hold 150 PSI
3. Compare shipping costs: Local Santiago suppliers charge 12% less than cross-border options

Supplier Alert: Tariff Changes

Chile's 2024 industrial equipment policy slashes import taxes on second hand air tanks by 9%. German and Korean suppliers now offer competitive quotes against Chinese sellers.

Ready to explore options? Top Santiago dealers like Maquinaria Pesada Chile report 48-hour delivery for in-stock units. Request a quotation this week - 78% of buyers negotiate 8-15% discounts during off-peak seasons. Remember: Properly inspected used tanks last 6-10 years, making them the smart ROI choice for
