Second Hand Core Drilling Rig Price in Qatar 2024: Price List, Quotation & Best Deals

Need a second hand core drilling rig in Qatar but worried about cost and quality? You're not alone. 63% of construction companies in Qatar now opt for refurbished equipment to cut expenses. Let's break down the price in Qatar, where to find trusted suppliers, and how to avoid costly mistakes.

Why Second Hand Core Drilling Rigs Dominate Qatar's Market

Qatar's mega-projects like Lusail City and World Cup stadiums created a surge in demand. Now, with reduced large-scale construction, second hand core drilling rig prices dropped 18% since 2022. Popular models include:

Used Husqvarna DMS 240 - 22,000-28,000 QAR

Refurbished Atlas Copco Boomer L2 - 38,500-45,000 QAR

2019-model Hilti DD 120 - 31,000 QAR (45% below new)

The Hidden Trap in Cheap Deals

A Doha contractor bought a 15,000 QAR rig from an unverified seller last year. It failed mid-project, causing 72,000 QAR in penalties. Always check:

Service history (minimum 2 maintenance records)

CE/ISO certification for refurbished units

Local warranty (6 months minimum)

2024 Price Trends: Smart Buying Guide

Top suppliers like Equipment Line Qatar and Al Sulaiteen offer price per piece quotes with free inspection. Current deals:

Rig + diamond bits bundle: Save 12%

Wholesale discount: 5+ units = 9% ROI boost

How to Get Instant Quotation

Qatar-based buyers save 27% by sourcing directly from China/UAE refurbishers. Example: A Sharjah company sells 2021 Tiger T22 rigs for 33,500 QAR with Doha delivery - 19% cheaper than European imports.

Always request:

Pro tip: Ask for "quotation breakdown" showing transport, customs, and rig age. Younger than 5-year-old models have 40% longer lifespan.
