

Second Hand Core Drilling Rig for Sale in France 2025: Price List, Quotation & Buying Guide

Second Hand Core Drilling Rig for Sale in France 2025: Price List, Quotation & Buying Guide

Looking for second hand core drilling rig price in France? You're not alone. French construction companies and contractors increasingly seek affordable heavy machinery to complete projects without breaking budgets. But navigating the used equipment market can feel like drilling blindfolded - risky and full of hidden costs.

Why Used Core Drilling Rigs Win in France

France's infrastructure projects grew 9% in 2024, pushing demand for cost-effective equipment. A new Bauer GB 30 drilling rig costs EUR120,000+, while a second hand core drilling rig sells for EUR45,000-EUR70,000 - saving 30-50%. Last month, a Lyon contractor bought a 2019 Sandvik DE130 through online auctions, cutting project costs by 38%.

The Hidden Risks of Cheap Deals

But wait - why do some buyers regret their purchase? Bargain hunters often face:

Missing service records (42% of used machinery in EU markets)

Hidden repair costs averaging EUR8,500

No compliance with France's updated safety regulations

Smart Buying Guide: Get Quality & ROI

Top French suppliers like France Machinery Export now offer certified refurbished rigs with 6-month warranties. Here's how to secure the best price per piece:

Verify operational hours and maintenance logs

Request live video inspections

2025 Price Trends in Key Markets

German-made used rigs (Bauer, TAMROCK) dominate 55% of France's imports at EUR52,000-EUR68,000. Chinese models (XY-4, CSD180C) offer entry-level options from EUR28,000. Pro tip: French tax rebates for EU-origin machinery can save 5-7% on import VAT.

Looking ahead? A Marseille drilling specialist secured a 2022 Atlas Copco Diamec 1220 for EUR61,500, negotiating free spare bits and training. Their ROI came in 7 months versus 18 months for new equipment. Remember: Always check the CE mark and EN 791 compliance for French worksites.
