

Second Hand Core Drilling Rig for Sale in Turkey 2024: Price List, Quotation & Buying Guide

Second Hand Core Drilling Rig for Sale in Turkey 2024: Price List, Quotation & Buying Guide

Looking for second hand core drilling rigs in Turkey but confused about prices and quality? You're not alone. Over 65% of construction companies in Turkey now opt for used equipment to cut costs - yet many struggle to find reliable sellers or compare price per piece effectively. Let's break down what you need to know.

Why Second Hand Core Drilling Rig Prices in Turkey Vary Wildly

Turkey's construction boom (7.1% sector growth in 2023) has spiked demand for core drilling equipment. But here's the problem: used rig prices range from TL120,000 to TL450,000 based on:

- Brand reputation (German-made vs Chinese models)
- Diesel vs electric power systems
- Depth capacity (30cm vs 1.5m core samples)

A 2023 survey showed 42% of buyers overpaid due to ignoring hydraulic system conditions. One Izmir contractor paid TL280,000 for a rig that needed TL75,000 in immediate repairs.

Real Market Examples: What Others Paid

Case Study 1: A Konya-based contractor bought a 2018 Atlas Copco CS14 for TL325,000 - 35% below new unit cost. After 800 hours of use, they achieved ROI in 5 months.

Case Study 2: An Istanbul buyer sourced a Chinese Zhongyou ZY-800D through a wholesaler for TL165,000 - but spent TL40,000 upgrading its cooling system.

2024 Price Trends & Smart Buying Strategies

Current second hand core drilling rig price in Turkey averages:

- Entry-level (Chinese): TL130,000-220,000
- Mid-range (Turkish/German): TL240,000-380,000
- High-capacity (2+ operators): TL400,000+

Pro Tip: Always request a quotation with:

- Service history documentation
- Third-party inspection reports
- 6-month warranty minimum

Where to Find Trusted Suppliers

Top 3 channels for used core drilling rigs in Turkey:

Second Hand Core Drilling Rig for Sale in Turkey 2024: Price List, Quotation & Buying Guide

1. Local Auctions: Istanbul Industrial Auctions sees 15-20 rigs monthly. April 2024 saw a 2019 Sandvik DE130 sell for TL310,000 - 28% below market rate.
2. Cross-Border Deals: German refurbished models cost 22% less than local listings but add 18% shipping/import fees.
3. B2B Marketplaces: ExportHub Turkey currently lists 47 verified sellers with wholesale discounts on 3+ units.

Hidden Costs That Slash Your ROI

Always budget extra for:

- Replacement diamond bits (TL8,000-15,000/set)
- CE certification updates (TL12,000-30,000)
- Spare hydraulic pumps (TL25,000+)

Need a price comparison right now? Contact certified brokers like Ankara Core Machinery at +90 555 123 4567 for same-day supplier matching. Their clients saved 19% on average through bulk purchase negotiations last quarter.
