

Second Hand Crawler Air Compressor Price in China 2025: Price List, Quotes & Wholesale Deals

Second Hand Crawler Air Compressor Price in China 2025: Price List, Quotes & Wholesale Deals

Need a crawler air compressor but working with a tight budget? You're not alone. Over 60% of construction companies in Asia now prefer second hand crawler air compressors from China to slash equipment costs by 40-70%. But here's the problem: how do you find reliable prices without getting scammed?

Why China Dominates Second Hand Crawler Air Compressor Sales

China's massive construction boom (over 200,000 active projects in 2024) creates a flooded market of used crawler air compressors. A 2024 machinery report shows:

Average price range: JPY80,000-JPY350,000 (\$11,000-\$48,000)

Top brands like Sullair and Atlas Copco sell 35% cheaper used vs new

Port cities like Shanghai offer 20% better wholesale deals

The Hidden Costs First-Time Buyers Miss

A German buyer recently paid JPY120,000 for a "like-new" unit, only to spend JPY45,000 extra on hydraulic repairs. Why? They skipped three critical checks:

Engine hours verification (aim for
