

Second Hand Crawler Air Compressor Prices in the UK 2024: Cost List, Supplier Quotes & ROI Guide

Second Hand Crawler Air Compressor Prices in the UK 2024: Cost List, Supplier Quotes & ROI Guide

Looking to buy a second-hand crawler air compressor in the United Kingdom but worried about costs? You're not alone. Over 60% of construction firms now consider pre-owned equipment to combat rising prices. Let's break down current market rates, hidden savings, and where to find verified suppliers.

Why UK Buyers Choose Used Crawler Compressors

New crawler air compressors cost GBP18,000-GBP50,000+ in the UK. Meanwhile, second-hand models sell for 35-60% less (GBP8,000-GBP25,000). A Manchester drilling contractor saved GBP12,000 last month buying a 2021 Atlas Copco XAS 368 KD via a Leeds-based reseller.

The Real Cost of "Cheap" New Units

Many budget buyers regret rushed purchases. One Glasgow operator bought a new Chinese-made compressor for GBP16,500... then spent GBP3,200/year on repairs. Pre-owned units from established brands like Ingersoll Rand or Kaeser often outlast cheaper new alternatives.

2024 UK Price Trends: What You'll Actually Pay

Current price ranges for popular used models:

Small units (185-250 CFM): GBP8,500-GBP14,000

Mid-size (300-400 CFM): GBP12,000-GBP20,000

High-capacity (500+ CFM): GBP18,000-GBP25,000

Watch for Brexit-related import shifts - German refurbished units now cost 8-12% more in the UK than pre-2023. Local suppliers like Staffordshire Plant Hire currently offer better ROI on UK-stocked machines.

3-Step Buying Guide for Maximum Savings

Verify operating hours: Request ECU reports (avg. 4,500 hrs = good value)

Test critical parts: Compressor pumps, diesel engines, and crawler tracks

Compare quotations: Get 3+ supplier quotes - prices vary 15-30% regionally

Case Study: 2024 Purchasing Success

Norwich Earthworks Ltd. saved 42% buying a 2019 Sullair 300-400 CFM unit through an auction platform. Total cost: GBP16,200 vs GBP28,000 new. Their secret? Timing purchases in January-March when dealers clear inventory.

Where to Find Reliable Suppliers Right Now

The UK's Construction Equipment Association reports 23% growth in certified used gear marketplaces. Top options:

- Certified resellers (e.g., H.E. Services, London)
- Government auctions (Network Rail surplus sales)
- EU import specialists (best for low-hour Atlas Copco units)

For immediate price quotations, check listings updated this week on PlantLocator and Auto Trader Plant. Most dealers now offer 90-day warranties - double the 2022 average. A Bristol buyer recently negotiated free transportation on a GBP19,500 Doosan deal simply by asking.

Ready to compare actual running costs? Diesel vs electric models show GBP0.18-GBP0.35/kWh differences in UK operations. Many councils now offer 10-15% grants for low-emission second-hand equipment through sustainability programs.
