

Second-Hand Crawler Air Compressor for Sale in Turkey 2025: Price List, Quotes & Buying Guide

Second-Hand Crawler Air Compressor for Sale in Turkey 2025: Price List, Quotes & Buying Guide

Need a second-hand crawler air compressor price in Turkey that fits your budget? You're not alone. Construction companies and mining operators across Turkey are turning to used equipment to cut costs without sacrificing performance. But how do you avoid scams or overpriced deals? Let's break down what you need to know.

Why Turkey's Market Demands Affordable Crawler Compressors

Turkey's construction sector grew by 6.2% last year, driving demand for mobile air compressors. However, new units from Germany or China can cost EUR15,000-EUR30,000. That's why used crawler compressors now make up 35% of local equipment purchases. Buyers save up to 60% while getting machines with 2-5 years of remaining lifespan.

What's the Average Price of Second-Hand Crawler Air Compressors in Turkey?

Expect to pay \$5,000-\$15,000 depending on:

- Brand (Atlas Copco vs. local Turkish suppliers)
- Working hours (under 3,000 hours = higher cost)
- Airflow capacity (5-20 CFM models vary widely)

3 Red Flags When Buying Used Crawler Compressors

A Dubai-based contractor lost \$8,200 last year by skipping these checks:

- No maintenance records for the diesel engine
- Hidden corrosion under the chassis
- Unverified hour meter readings

How to Get the Best Quotation in 2025

Top Ankara suppliers like MakinePlus offer price per piece discounts for bulk orders. For example:

- 1 unit: \$12,500
- 3+ units: \$10,900 each

Always request a ROI analysis. A 2024 case study showed a Turkish mining firm recouped costs in 14 months using refurbished Atlas Copco units.

New Government Incentives for Heavy Machinery Buyers

Second-Hand Crawler Air Compressor for Sale in Turkey 2025: Price List, Quotes & Buying Guide

Turkey recently reduced VAT from 18% to 8% for used industrial equipment imports. Combined with the weak lira (down 15% against USD since 2023), this makes second-hand crawler air compressor prices in Turkey highly competitive vs. EU markets.

Ready to compare offers? Contact trusted suppliers like Eksis Is Makinalari for a free quotation within 24 hours. Their certified technicians provide full inspection reports - no surprises, just compressed air solutions that work.
