

Second Hand DTH Drilling Rig Price in Singapore 2025: Cost, Quotation & Supplier Deals

Second Hand DTH Drilling Rig Price in Singapore 2025: Cost, Quotation & Supplier Deals

Need an affordable second hand DTH drilling rig in Singapore? You're not alone. With Singapore's booming construction sector and tight budgets, contractors are racing to find cost-effective equipment. But fluctuating prices, unreliable suppliers, and hidden fees can turn this into a nightmare. Let's break down what you need to know about second hand DTH drilling rig price in Singapore - including real price lists, smart buying tricks, and trusted suppliers.

Why Are Second Hand DTH Rig Prices So Volatile?

In 2025, the average price for a used DTH rig in Singapore ranges from SGD 180,000 to SGD 420,000. That's a 40% swing! Here's why:

- Global supply chain delays push buyers toward Southeast Asian sellers.
- High demand from Indonesia's mining sector drains regional stocks.
- Chinese manufacturers flood markets with cheaper refurbished models.

A 2024 survey by Singapore Construction Equipment Hub found 68% of buyers overpaid because they didn't check price per piece for parts like hammers or compressors. One contractor paid SGD 22,000 extra for a rig that needed a new drilling head - a cost not shown in the initial quotation.

3 Smart Ways to Lock in the Best Price

#1: Compare Suppliers Across Asia

Don't limit yourself to Singaporean sellers. A used DTH rig from Malaysia often costs 15-20% less after shipping. For example:

- 2019 Sandvik DX800 in Johor: SGD 245,000
- Same model in Singapore: SGD 289,000

#2: Time Your Purchase

Construction slowdowns in China (March-June 2025 forecast) mean Chinese traders drop prices by up to 18% to clear inventory. Singapore's Q3 monsoon season also creates buyer-friendly deals.

#3: Verify ROI with Maintenance History

Ask for:

- Engine hours (aim under 6,000)
- Replacement part logs

Local compliance certificates

Where to Find Reliable Suppliers in 2025

Top 3 trusted sources for second hand DTH drilling rigs in Singapore:

LTA-Approved Dealers: Guaranteed 6-month warranty but 12-15% pricier

China Refurbishment Hubs: Save 30-40% - verify CE markings

Offshore Auction Platforms: Riskier but sometimes 50% below market rate

Pro tip: GlobalTec Machinery moved 14 used rigs from Shanghai to Singapore in Q1 2024 at an average price per piece of SGD 207,000 - 22% below local rates. Their secret? Bulk container shipping and pre-negotiated Customs clearance.

Singapore's New Tax Incentives - Use Them!

The 2025 Productivity Solutions Grant offers 50% funding (up to SGD 15,000) for SMEs buying second-hand heavy machinery. Combined with rig price drops, this could cut your net cost to SGD 98,000 for a basic model.

Ready to act? Download our free buying guide with 2025 price lists from 7 ASEAN suppliers. Or request a customized quotation - most dealers respond within 4 business hours. Just avoid "too good to be true" deals under SGD 150,000 unless you're ready for heavy repairs.
