

Second Hand DTH Drilling Rig for Sale in Australia: 2025 Price List, ROI Guide & Supplier Deals

Second Hand DTH Drilling Rig for Sale in Australia: 2025 Price List, ROI Guide & Supplier Deals

Looking for second hand DTH drilling rig prices in Australia? You're not alone. Over 60% of mining contractors now opt for used equipment to cut upfront costs. But here's the headache: Prices swing wildly between \$50,000 AUD to \$300,000 AUD based on age, brand, and maintenance history. Let's break down how to get the best deal without compromising quality.

Why Australian Buyers Choose Second Hand DTH Rigs

Australia's mining boom keeps drilling equipment demand high. New rigs from China or Germany cost \$500,000+ AUD - a budget killer for small contractors. Used DTH rigs slash initial investments by 40-60%, with proven ROI in 18-24 months according to Mining Technology Australia. But beware: 1 in 3 buyers report hidden maintenance costs eating into savings.

Real-World Case: Western Mining Corp Saved \$120k AUD

This Perth-based company bought a 2018-model Sandvik DX800 second hand DTH drilling rig for \$185,000 AUD. After \$15,000 AUD in hydraulic repairs, it's outperformed their newer rigs for 14 months straight. "We recouped costs in 20 months," says site manager Greg Turner. Their secret? Rigorous pre-purchase testing of:

Engine hours (under 4,000 preferred)

Bit changer functionality

Compressor maintenance records

2025 Price Trends for Used DTH Rigs in Australia

Market analysis shows second hand DTH drilling rig prices will rise 8-12% through 2025 due to:

Copper/gold exploration surging in WA and QLD

China's used equipment exports dropping 25%

New ATO depreciation rules favoring used assets

A 5-year-old rig averaging \$150,000 AUD today could hit \$168,000 AUD by mid-2025. Smart buyers are locking in deals now through certified suppliers like DrillMasters AU or accessing ex-lease stock from BHP/Rio Tinto.

3-Step Buying Guide (Without Getting Scammed)

1) Verify the seller's credentials: Licensed dealers must provide NORCAT certification. Private sellers? Demand full service history.

2) Price check multiple sources: Compare quotes from Brisbane, Perth, and Adelaide suppliers. The same 2017 Atlas Copco rig varied by \$42,000 AUD last month!

Second Hand DTH Drilling Rig for Sale in Australia: 2025 Price List, ROI Guide & Supplier Deals

3) Calculate true ROI: A \$200,000 AUD rig needing \$30k AUD repairs still beats a \$400k AUD new unit if used daily. Use the DrillingROI Calculator app for exact figures.

Need a ballpark figure? Here's what DrillSearch Australia reported last week:

- 2015 Schramm T685WS: \$78,000-\$95,000 AUD
- 2019 Epiroc D90 Smart: \$210,000-\$245,000 AUD
- 2020 SOILMEC R812: \$165,000 AUD (ex-government, low hours)

Your move? Contact suppliers like RigResale AU for live inventory updates. Some offer 7-day inspection periods and optional 12-month warranty packages. Remember: A smart second hand DTH drilling rig purchase in Australia could fund your next big contract win. Check today's price list here.
