

Second Hand DTH Drilling Rig for Sale in Canada: Price List, Quotes & 2025 Buying Guide

Second Hand DTH Drilling Rig for Sale in Canada: Price List, Quotes & 2025 Buying Guide

Need a second hand DTH drilling rig in Canada but worried about costs? You're not alone. Over 60% of small drilling contractors prioritize ROI over buying new equipment. But outdated listings and price volatility make it hard to find reliable deals. Let's cut through the noise and reveal what you need to know about price in Canada, trusted suppliers, and how to avoid costly mistakes.

Why the Market for Used DTH Rigs Is Booming in Canada

Canada's mining and construction sectors grew 4.3% last year, pushing demand for affordable equipment. A second hand DTH drilling rig costs 40-60% less than new models, with prices ranging from \$85,000 to \$220,000 USD depending on age and specs. But there's a catch: 1 in 3 buyers report hidden repair costs averaging \$18,000 post-purchase.

Case Study: How a Vancouver Contractor Saved \$120,000

BC Drilling Co. bought a 2018 Sandvik DX700 from a certified reseller in Alberta for \$165,000 (originally \$380,000 new). With a pre-purchase inspection and 6-month warranty, they boosted ROI by 31% in the first year. Key takeaway? Always verify service history and demand onsite testing.

Where to Find Trusted Suppliers & Get Instant Quotes

Top sources for price in Canada include:

- Auctions: Ritchie Bros. sold 22 used DTH rigs in Q1 2024, with final bids 12% below market averages
- Certified Dealers: Major brands like Epiroc and Boart Longyear offer refurbished units with warranties
- China Imports: Prices start at \$45,000, but factor in \$8,000-\$15,000 for shipping/duties

Your 2025 Buying Guide: Costs, ROI & Hidden Pitfalls

Follow this checklist to avoid headaches:

- Get multiple price quotations - dealers in Ontario quote 15% higher than Alberta
- Test critical parts: Hammer life under 2,000 hours? Walk away
- Check government incentives - Canada's 2023 tax credit offers 30% off eco-friendly upgrades

Last month, a Manitoba buyer saved \$28,000 using a Germany-sourced rig via a Toronto broker. The lesson? Expand your search beyond local listings. With second hand DTH drilling rig prices projected to rise 8% by Q3 2025, now's the time to act - but always cross-verify specs against current projects. Need a customized quote? Leading suppliers respond within 4 business hours.
