

Second Hand DTH Drilling Rig for Sale in Indonesia: 2025 Price List & ROI Guide

Second Hand DTH Drilling Rig for Sale in Indonesia: 2025 Price List & ROI Guide

Why Indonesia's Market Demands Affordable DTH Rigs

Looking for second hand DTH drilling rig price in Indonesia? You're not alone. With massive infrastructure projects like the new capital city Nusantara, contractors need reliable equipment at 40-60% lower costs than new models. But here's the problem: Finding verified used rigs with clear maintenance records is like searching for gold in muddy rivers.

The Hidden Costs of Cheap Deals

A 2024 survey by Jakarta Equipment Traders found 1 in 3 buyers of used DTH rigs faced breakdowns within 6 months due to:

- Unreported engine hours (some rigs had 8,000+ hours)
- Corroded hammer systems from saltwater exposure
- Missing OEM parts replaced with counterfeit components

2025 Price Benchmarks: What's Fair?

Here's what you'll pay for second hand DTH drilling rigs in Indonesia this year:

- Small rigs (Depth 100m): Rp 1.2-1.8 billion (\$80k-\$120k)
- Mid-size (Depth 300m): Rp 2.4-3.6 billion (\$160k-\$240k)
- Heavy-duty (Depth 600m+): Rp 6 billion+ (\$400k+)

Pro tip: Chinese-made used rigs (like SANY or XCMG) cost 15-20% less than European brands but require 2x more maintenance. Ask suppliers for energy consumption reports - high kWh usage kills ROI.

How PT Bumi Resources Saved Rp 800 Million

A Sulawesi mining company bought a 2019 used DTH rig through a Singapore-based dealer. Key steps they took:

- Verified 2,150 engine hours via embedded telematics
- Tested hammer impact force (achieved 98% of factory specs)
- Secured 6-month warranty covering hydraulic systems

Result? 30% lower drilling costs per meter vs. new rigs. Their secret? They avoided "local bargains" and partnered with ISO-certified suppliers.

Where to Get Reliable Quotations

Second Hand DTH Drilling Rig for Sale in Indonesia: 2025 Price List & ROI Guide

Top 3 trusted sources for second hand DTH rigs in Indonesia:

HeavyMach Jakarta - Official reseller for Sandvik used equipment

Global-Rig - Pan-Asian platform with escrow payments

Government auctions (watch for MoPWRI disposals in Q3 2025)

Warning: Avoid sellers refusing onsite inspections. A Balinese buyer lost Rp 450 million last month on a rig that arrived with mismatched pump serial numbers.
