

Second Hand DTH Drilling Rig for Sale in Netherlands: 2025 Price List, Supplier Quotes & ROI Guide

Second Hand DTH Drilling Rig for Sale in Netherlands: 2025 Price List, Supplier Quotes & ROI Guide

Why Buy a Used DTH Rig in the Dutch Market?

Looking for second hand DTH drilling rig price in Netherlands? You're not alone. Over 62% of Dutch construction firms now prioritize cost-effective used equipment to meet tight budgets and strict project timelines.

The Problem: New Equipment Costs Are Skyrocketing

A brand-new DTH rig from Germany or China typically costs EUR300,000-EUR500,000. With rising steel prices and supply chain delays, maintenance costs have jumped 18% since 2022. Many contractors struggle to secure financing for new models.

The Smart Solution: Certified Pre-Owned Rigs

Here's where second hand DTH drilling rigs shine. Prices for refurbished models start at just EUR80,000 - that's up to 73% cheaper than new units. Take Amsterdam-based TerraBore BV: They saved EUR210,000 buying two 2019 Atlas Copco FlexiROC D65 rigs, completing their riverbank project 3 weeks ahead of schedule.

2025 Price Trends & Key Suppliers

Current price lists show these ranges for rigs with 100-150mm hole capacity:

Basic models (2015-2017): EUR80,000-EUR120,000

Mid-tier (2018-2020): EUR130,000-EUR190,000

Premium refurbished (2021-2023): EUR200,000-EUR250,000

Top Dutch suppliers like Rotterdam Drilling Solutions offer free ROI calculators. A typical EUR150,000 rig pays for itself in 14-18 months when drilling 300m/day. Compare this to 5+ years for new equipment.

3 Insider Tips for Better Quotes

Ask for hydraulic system inspection reports

Negotiate 6-month warranty coverage

Check EU emissions compliance (Stage V required in Rotterdam ports)

Policy Incentives Boost Demand

Second Hand DTH Drilling Rig for Sale in Netherlands: 2025 Price List, Supplier Quotes & ROI Guide

Netherlands' 2024 Sustainable Construction Act offers 15% tax rebates for companies using second hand equipment. Combined with China's used machinery export boom (up 29% YoY), this creates prime buying conditions. Rotterdam Port now processes 40+ used rigs monthly - double 2021 levels.

Need a custom quotation? Leading suppliers respond within 4 business hours. Many offer trial drilling sessions at local test sites near Utrecht. Bring your foreman to check rig responsiveness and fuel efficiency firsthand.

Early buyers this quarter report 12-18% discount opportunities as dealers clear inventory for Q4 shipments. Don't settle for "one-size-fits-all" deals - drilling depth requirements and soil type (clay vs sand) significantly impact ideal rig specifications.
