

Second Hand DTH Drilling Rig for Sale in Philippines: 2025 Price List, Quotes & Buying Guide

Second Hand DTH Drilling Rig for Sale in Philippines: 2025 Price List, Quotes & Buying Guide

Why Buy a Used DTH Drilling Rig?

Looking for a second hand DTH drilling rig in the Philippines? You're not alone. Over 60% of small-to-medium mining and construction companies now prefer pre-owned equipment to cut costs. But here's the problem: prices vary wildly (from PHP2.5M to PHP8M), and some sellers repaint old rigs to hide mechanical issues.

The Hidden Costs of Cheap Deals

Last year, a Cebu-based contractor bought a "bargain" used DTH rig for PHP1.8M. It broke down after 120 drilling hours - repair costs hit PHP1.2M. This is why knowing the real market value matters.

2025 Price Trends: What You'll Pay

Basic 2018 models: PHP2.5M-PHP3.8M

Mid-tier rigs (2020-2022): PHP4.2M-PHP6M

High-spec rigs with warranty: PHP7M+

Prices depend on drill depth capacity (100m vs. 300m), engine hours, and brand. Chinese-made DTH rigs like SANY or XCMG cost 20-30% less than Atlas Copco/Sandvik units.

Case Study: Mindanao Mining Co.

In 2023, this company saved PHP1.1M by purchasing a 2020-model second hand drilling rig from China instead of a new unit. They negotiated free spare parts and a 6-month service contract.

How to Get the Best Deal

Step 1: Always ask for:

Maintenance records (minimum 3 years)

Third-party inspection reports

Spare parts availability in ASEAN

Top dealers like Manila Heavy Machinery now offer free quotations with lifetime repair discounts for repeat buyers.

Watch Out for These Red Flags

o Rust under fresh paint

o Sellers refusing video inspections

o "Mileage reset" tools showing fake engine hours

Supplier Showdown: China vs. Local

Chinese suppliers dominate 65% of the Philippines' second hand DTH rig market. But local dealers counter with faster delivery and tax/duty support. Pro tip: Importing a PHP5M rig from China adds 12% in fees - compare total costs!

The market is hot right now. A Luzon-based dealer sold 17 used DTH drilling rigs in March 2024 alone. Want updates? Subscribe to price alerts or check mining expos like PhilConstruct for live demos.
