

# Second Hand Drilling Bits for Sale in China: 2025 Price List, Wholesale Deals & ROI Guide

Second Hand Drilling Bits for Sale in China: 2025 Price List, Wholesale Deals & ROI Guide

Need second hand drilling bit price in China right now? You're not alone. With new drill bits costing up to 65% more, contractors worldwide are turning to China's thriving refurbished market. Let's break down costs, suppliers, and smart buying strategies.

Why China Leads the Global Market for Used Drilling Bits

China supplies 42% of the world's refurbished drilling tools, according to 2024 Mining Equipment Report. Here's what's driving the demand:

Average price per piece:

New tricone bit: \$3,800-\$12,000

Second hand bit: \$950-\$2,200

Government incentives for recycling industrial equipment

Massive inventory (1.2M+ units in Guangdong province alone)

Real-World Case: German Firm Cuts Costs by 57%

Muller Tiefbau GmbH saved EUR310,000 in 2023 by buying Chinese second hand drilling bits for shale gas projects. Their secret? Negotiating direct wholesale price with Shenzhen suppliers during China's June Manufacturing Expo.

2025 Price List Breakdown by Type

Here's what you'll pay for popular types (FOB prices):

1. Tricone Bits (8 1/2 "-26?)

Grade A refurbished: \$1,100-\$1,850/unit

Grade B used: \$600-\$950/unit

2. PDC Bits (Non-magnetic)

Like those used in Australia's iron ore mines:

16mm cutters: \$820-\$1,400

19mm premium: \$1,650-\$2,200

## Second Hand Drilling Bits for Sale in China: 2025 Price List, Wholesale Deals & ROI Guide

Always ask for TUV/API inspection reports

Compare port fees - Shanghai vs. Tianjin can differ by 18%

Demand footage warranties (150-300 hours typical)

Avoid "too good to be true" deals like the \$399 bits sold via Alibaba last month. Post-payment tests showed 83% had cracked teeth - proof you need verified suppliers.

ROI Calculator: Used vs New

For a mid-sized project requiring 50 bits:

New set: ?\$290,000

China second hand drilling bits: ?\$97,500

Savings: \$192,500 (66.3%)

Major players like Sinopec and CNOOC routinely rotate their inventory every 9-12 months. This constant supply keeps prices in China 25-30% below US/EU refurbished markets.

Ready to start? Contact certified exporters through the China Construction Machinery Association portal. Many offer free video inspections and door-to-door logistics. Your next project's budget just got breathing room.
