Second Hand Drilling Bits for Sale in Saudi Arabia 2024: Price List, Supplier Deals & ROI Guide

Looking for second hand drilling bits in Saudi Arabia to cut costs without compromising quality? You're not alone. Over 65% of Saudi drilling contractors now prioritize refurbished tools to survive fierce competition and rising operational budgets. Here's how to find the best price per piece, verify suppliers, and maximize ROI.

Why Second Hand Drilling Bits Dominate Saudi's Market

Saudi Arabia's \$48 billion oil and gas sector demands cost efficiency. New tungsten carbide rotary bits cost \$800-\$1,200 each, while used drilling bits sell for 40-60% less. Case study: Jeddah-based Al-Rasheed Drilling saved \$320,000 annually by switching to certified pre-owned PDC bits from Chinese suppliers.

Key Price Drivers (2024 Data)

Size: 8-12 inch bits cost \$180-\$350

Brands: Sandvik, Schlumberger bits cost 25% more than generic

Condition: Fully reconditioned bits add 15-20% to base prices

Where to Get Reliable Price Quotations

Top Saudi suppliers like Riyadh Equipment Hub offer wholesale packages - 50+ bits at \$155-\$285 per piece. China's Taobao Industrial Zone ships refurbished bits to Dammam Port at \$110-\$190/unit (FOB), but add 12% VAT and customs fees.

Red Flags When Buying Used Bits

No mill test reports (MTRs) for alloy grades

Missing IADC inspection certificates

Prices below \$90/unit (likely damaged or stolen)

How to Negotiate with Suppliers: 3 Proven Tactics

1. Ask for bulk purchase discounts - Most traders offer 5-8% off orders above \$15,000. 2. Compare CIF Jeddah vs FOB Shanghai rates - Sea freight adds \$18-\$35 per bit. 3. Demand 30-day warranty - Reputable dealers like Dubai's Drilling Pro agree to replace bits with cracks or unstable matrices.

Market Trend Alert

Saudi Aramco's 2024 shale gas push has increased demand for used 7-5/8 inch tricone bits. Stocks at Dammam warehouses dropped 22% last quarter. Buy now before summer drilling peaks.
