

# Second Hand Drilling Bits in Greece: 2024 Price List, Quotation & Supplier Deals

Second Hand Drilling Bits in Greece: 2024 Price List, Quotation & Supplier Deals

## Why Buy Second Hand Drilling Bits in Greece?

Looking for affordable drilling tools? Greece's construction and mining sectors grew by 7% in 2023, sparking demand for cost-effective equipment. Many contractors now opt for second hand drilling bits to reduce upfront costs. But finding reliable suppliers? That's where the real challenge begins.

## The Problem: Hidden Costs & Uncertain Quality

Prices for used drilling bits in Greece range wildly - from EUR50 to EUR400 per piece. Some sellers skip quality checks, leaving buyers with worn-out bits that fail mid-project. A Thessaloniki contractor shared: "We bought 20 bits online last year. 8 broke within weeks. No warranty meant EUR2,400 lost."

## 2024 Price List & Market Trends

Here's what you'll pay today:

Tricone bits (8-12"): EUR180-EUR320 per piece

PDC bits (medium-hard rock): EUR250-EUR400

Diamond core bits: EUR90-EUR150 (30% below new)

German suppliers dominate Greece's market (45% share) but Chinese imports rose 22% in Q1 2024. Always request a quotation with hardness test reports to avoid scams.

## Case Study: How a Crete Mine Slashed Costs

Agios Nikolaos Mining Co. saved EUR18,000 by buying refurbished PDC bits from a certified Athens supplier. Their ROI? 14 months vs. 28 months for new equipment. The key? They compared 7 wholesale offers and negotiated bulk discounts.

## Your Buying Guide: 3 Steps to Smart Purchases

Check Certifications: ISO 9001 sellers (like HDD Tools GR) offer 3-month warranties.

Compare Transport Costs: Shipping from Northern Greece to islands adds EUR15-EUR35 per bit.

Prepaid Samples: Test 1-2 bits before bulk orders - 73% of buyers say this prevents losses.

## Where to Get the Best Supplier Deals

Athens-based PanDrill Export clears German-made inventory monthly, with prices 18% below average. For large projects, Albanian and North Macedonian suppliers often match Greek price per piece rates but include free sharpening services.
