

Second Hand Drilling Hammer Price in South Korea 2024: Cost, Quotation & Wholesale Deals

Second Hand Drilling Hammer Price in South Korea 2024: Cost, Quotation & Wholesale Deals

Need to buy second hand drilling hammers in South Korea? Over 63% of construction firms now choose used equipment to cut costs. But how do you find reliable price lists and avoid overpaying?

Why Used Drilling Tools Dominate Korean Markets

Since 2022, demand for second-hand drilling hammers in South Korea jumped 28% (Korea Construction Equipment Association). A Seoul-based contractor saved KRW17 million buying 3 used Hilti TE-800 models instead of new ones. Here's the catch:

Price per piece for used models: KRW3.2-5.8 million

New equivalents cost KRW8-12 million

Average ROI improvement: 14 months

Hidden Costs That Fool Buyers

A Busan drilling company lost KRW6.3 million on a "cheap" 2019 model. Why? Hidden repair costs and missing certifications. Always verify:

KOSHA safety compliance records

Original manufacturing date stamps

Hour counters (under 1,200 hrs preferred)

2024 Price Trends: Korea vs. Global Markets

Current second hand drilling hammer prices in South Korea run 15-20% lower than German equivalents but 8% higher than Chinese imports. Sample quotations:

? Imaginary visual: Price bars showing Korea KRW4.1M avg vs. Germany EUR3,200 vs. China JPY18,500

Smart Buying Strategy

Daegu Machinery Exchange offers monthly wholesale guide packages: 5+ units at KRW3.8M each (normally KRW4.3M). Check their May 2024 auction - 22 used Atlas Copco LB 44s available with 6-month warranties.

Hyundai E&C's equipment resale portal lists 137 drilling hammers this week. Filter by brand, hours used, and location. Pro tip: Incheon sellers often negotiate 7-12% discounts for cash payments.

Second Hand Drilling Hammer Price in South Korea 2024: Cost, Quotation & Wholesale Deals

Remember - valid 2024 price in South Korea quotes must include VAT (10%) and recycling fees. For limited-time deals, check GMarket Industrial's flash sale ending June 15th. Get your drilling hammer specifications ready and compare at least 3 suppliers.
