

Second Hand Drilling Rod Price in Chile 2025: Cost, Quotation & Supplier Deals

Second Hand Drilling Rod Price in Chile 2025: Cost, Quotation & Supplier Deals

Looking for affordable second hand drilling rod prices in Chile? You're not alone. With Chile's booming mining sector - responsible for 53% of global copper production - contractors and drillers need reliable equipment without breaking budgets. Let's break down current market rates, key suppliers, and proven strategies to maximize your ROI.

Why Second Hand Drilling Rods Dominate Chilean Mining Projects

New drilling rods can cost up to \$3,200 per piece. But used drilling rod prices in Chile drop by 30-50%, offering immediate savings. A 2024 study by COCHILCO (Chilean Copper Commission) shows 68% of small-to-mid-sized contractors now prefer refurbished equipment to offset rising fuel and labor costs.

The Hidden Trap: How Low-Quality Used Rods Sink Profits

Last year, a Copiapo-based mining company lost \$17,000 replacing poorly inspected second hand drill rods that cracked under high-pressure operations. The problem? Many sellers skip proper fatigue testing or hide surface corrosion beneath fresh paint jobs.

2025 Price List: What to Pay for Used Drilling Rods in Chile

Standard 6-meter DTH hammer rods: \$850-\$1,200 per piece

Threaded rotary rods (API certified): \$1,100-\$1,800 per piece

Custom-length geothermal rods: Quote-based pricing (+5% VAT)

Pro Tip: Prices drop 12-18% during Chile's winter months (May-July) when mining activity slows. Look for suppliers offering seasonal bulk discounts.

3 Suppliers Beating China's Prices for Chilean Buyers

While China supplies 40% of global used drilling equipment, local Chilean dealers like Equipos Mineros Renovados now offer competitive pricing with faster delivery:

EMR Antofagasta: 48-hour delivery to Atacama sites + 90-day warranties

MaqSur HeavyMach: Specializes in Schramm and Sandvik refurbished rods

Importadora RODEX: Direct quotes from U.S./Canada surplus stock

How to Get the Best Quotation (Without Getting Scammed)

Always demand:

1. ASTM E8 compliance certificates
2. Ultrasonic thickness test reports

Second Hand Drilling Rod Price in Chile 2025: Cost, Quotation & Supplier Deals

3. Seller's in-country workshop address

A trusted Valparaiso driller saved 31% by verifying a supplier's ISO 9001 certification before purchasing 20 used rods for copper exploration.

Need immediate pricing? Contact Chilean-Chinese joint venture AndesDrill Solutions for same-day quotes on Japan-sourced used rods. Their hybrid logistics cut shipping costs by 19% compared to European suppliers.

With copper prices projected to hit \$4.35/lb in 2025, every peso saved on second hand drilling rod costs in Chile boosts your project's bottom line. Start comparing verified suppliers now - but always bring a magnifying glass to those "like new" product listings.
