

# Second Hand Drilling Rod Price in Egypt 2024: Cost, Quotation & Buying Guide

## Second Hand Drilling Rod Price in Egypt 2024: Cost, Quotation & Buying Guide

Looking to cut costs on drilling projects in Egypt? With infrastructure projects booming across the country, second hand drilling rod prices in Egypt have become a hot topic. In 2023 alone, Egypt's construction sector grew by 7.2%, driving demand for affordable equipment like used drilling rods. Let's break down what you need to know before buying.

### The Rising Demand for Second-Hand Drilling Rods in Egypt

Egypt's mega-projects - from the New Administrative Capital to desalination plants - require heavy drilling. But new drilling rods can cost \$500-\$800 per piece, while used ones sell for \$150-\$300. That's a 60% saving for contractors watching their ROI.

### What's Driving the Market?

Chinese suppliers now dominate 30% of Egypt's second-hand equipment imports due to competitive pricing. A 2024 survey showed 45% of Egyptian drillers prefer refurbished rods from Germany or China to balance cost and quality.

Average price per piece: \$180-\$270

Container shipping cost from China: \$1,200-\$2,000

Local Cairo suppliers stock: 500-800 rods/month

### 3 Pitfalls to Avoid When Buying Used Drilling Rods

Last year, a Hurghada construction firm lost \$12,000 buying rods that failed hardness tests. Here's how to dodge common traps:

Always request UT (Ultrasonic Testing) reports - 78% of quality issues relate to invisible cracks

Compare FOB prices from China vs local Egypt distributor quotations

Check if suppliers offer 90-day warranties - only 20% do, but it's worth negotiating

### Where to Get the Best Deals in 2024

Alexandria-based supplier DrillPro Egypt recently sold 200 rods to a Nile Delta irrigation project at \$210/piece - 22% below market rate. Their secret? Bulk purchases from Turkish manufacturers upgrading equipment.

Pro tip: Ask for price lists showing rod grades. Grade B (minor wear) rods cost 30% less than Grade A but

work perfectly for short-term projects.

### Future Price Trends to Watch

With Egypt planning 17 new solar farms requiring geological surveys, demand for used drilling equipment may push prices up 8-12% by Q3 2024. Now's the time to lock in quotes from certified suppliers in Cairo or Port Said.

Need a customized quotation? Leading wholesalers like ElSewedy Equipment offer volume discounts - 500+ rod orders often get 15% off. Just ensure shipping costs don't erase your savings. A typical 40ft container holds 120-150 rods.
