

Second Hand Engineering Drilling Rig for Sale in India: 2025 Price List, Quotation & Buying Guide

Second Hand Engineering Drilling Rig for Sale in India: 2025 Price List, Quotation & Buying Guide

Want to save 40-60% on drilling rig costs while meeting project deadlines? Second hand engineering drilling rig prices in India have dropped 15% since 2023 due to upgraded infrastructure projects and surplus stock. Let's break down what this means for your business.

Why India's Used Drilling Rig Market Is Booming

India's 8.4% infrastructure growth rate (NITI Aayog 2024) fuels demand for affordable equipment. Here's the deal: A new 300-meter depth engineering drilling rig costs INR2.5-4 crores. The same model used? Just INR1.2-2.2 crores - and still compliant with ISO 9013 standards.

Key Factors Affecting Second Hand Prices

Depth capacity (200m vs. 500m rigs)

Brand - Chinese rigs like SANY cost 25% less than European models

Service history - Full maintenance logs add 18% resale value

2025 Price Trends: What Suppliers Won't Tell You

Chinese suppliers now dominate 63% of India's used drilling rig market. Why? New GST reforms allow 12% tax rebates on refurbished machinery imports. Delhi-based Mahanagar Drilling saved INR82 lakh last month buying a 2019 XCMG XR280D rig through a Guangzhou dealer.

Sample price list (June 2024):

Atlas Copco FlexiROC T15 (2018) - INR1.85 crore

Schramm T685WS (2020) - INR2.1 crore (special shale formation model)

SANY SR285RC (2021) - INR1.3 crore (best for tight budgets)

Smart Buying Guide: Avoid These 3 Mistakes

Mumbai's SK Foundation lost INR28 lakh last year on a used rig with hidden engine issues. Here's how to buy safely:

1. Always demand:

- Hydraulic system pressure test results
- Drilling logs showing actual workload
- Third-party inspection certificates from TUV or EIL

Second Hand Engineering Drilling Rig for Sale in India: 2025 Price List, Quotation & Buying Guide

2. Ask suppliers for ROI calculations - Reputable dealers provide 3-year cost projections covering fuel, parts, and downtime.

Where to Get Live Quotations

Top platforms like Equipment Trader India update engineering drilling rig prices daily. Verified suppliers like Mumbai's GeoMech Solutions offer same-day quotes with 6-month warranties. Pro tip: Negotiate hard in June-September - monsoon slowdown means 8-12% price flexibility!

Ahmedabad-based GreenTech Infra recently bought two used Soilmec rigs through this strategy, cutting their equipment budget by INR1.4 crores. Now they're bidding on 3 new highway contracts...with money left to hire more operators.
