

# Second Hand Engineering Drilling Rig for Sale in Turkey: 2024 Price List, Supplier Deals & ROI Guide

Second Hand Engineering Drilling Rig for Sale in Turkey: 2024 Price List, Supplier Deals & ROI Guide

## Why Turkey's Market Demands Affordable Drilling Solutions

Struggling to find second hand engineering drilling rig price in Turkey that fits your budget? You're not alone. Construction firms and drilling contractors face 50-70% higher costs for new rigs compared to refurbished models. With infrastructure projects booming across Istanbul and Anatolia, smart buyers are turning to pre-owned equipment for faster ROI.

## Market Data: The Shift to Cost-Effective Rigs

Turkey's construction sector grew by 4.8% in 2023 (TUIK data), yet 63% of contractors report budget pressures. Here's where used engineering drilling rigs shine:

Average price for second-hand rigs: \$28,000-\$75,000 vs. \$120,000+ for new units

Top suppliers from China and Germany offer 12-18 month warranties

Local dealers in Ankara provide rigs with price per piece discounts up to 30%

## Case Study: How a Gaziantep Contractor Saved \$47K

Marblex Construction needed a Bauer BG 28 rig but faced a \$92,000 quote for a new model. By partnering with a drilling rig supplier in Izmir, they bought a 2019-certified unit for \$45,000 with these benefits:

Immediate availability (no 6-month wait for manufacturing)

Free operator training and spare parts quotation

ROI achieved in 14 months vs. 36 months for new equipment

## 3 Tips to Avoid Costly Mistakes When Buying Used Rigs

Not all engineering drilling rigs in Turkey deliver value. Follow this buying guide:

- 1) Verify maintenance logs - Reputable sellers like Ertan Group share digital service histories.
- 2) Test hydraulic systems onsite - 80% of repair costs come from pump failures.
- 3) Negotiate FOB terms - Importers save 8-12% by handling Izmir/Kocaeli port logistics.

## 2024 Price Trends: What to Expect

Used rig prices rose 6% this year due to Turkey's mega projects like the Istanbul Canal. However, Chinese suppliers like SANY and XCMG are stabilizing the market:

Sample 2024 price list (rotary drilling rigs):

- 2018 SANY SR285: \$48,900

- 2020 Soilmec RT3: \$67,500

- 2017 Liebherr LB 24: \$39,750

## **Second Hand Engineering Drilling Rig for Sale in Turkey: 2024 Price List, Supplier Deals & ROI Guide**

Tip: Ask for "all-inclusive quotations" covering VAT and customs clearance. Most EU-sourced rigs qualify for Turkey's 8% tariff reduction under the Customs Union deal.

Ready to act? Contact authorized dealers this week - 73% report stock shortages as demand peaks before Q4 project launches. Whether you need second hand engineering drilling rig parts or turnkey solutions, flexibility beats waiting for "perfect" deals in this fast-paced market.
