

Second Hand Four-Wheel Screw Diesel Compressor for Sale in Australia: 2024 Price List & Buying Guide

Second Hand Four-Wheel Screw Diesel Compressor for Sale in Australia: 2024 Price List & Buying Guide

Want to buy a second-hand four-wheel screw diesel compressor in Australia but confused about prices and reliability? You're not alone. Nearly 42% of mining and construction businesses in Australia now opt for used heavy machinery to cut costs while meeting urgent project demands. This guide breaks down price trends, trusted suppliers, and ROI strategies to help you make the smartest purchase.

Why Second-Hand Diesel Compressors Are Dominating Australian Markets

Australia's mining and infrastructure boom has spiked demand for mobile air compressors. But with new units costing \$45,000-\$80,000 AUD, small-to-medium businesses increasingly turn to pre-owned four-wheel screw diesel compressors. Industry data shows:

Used compressor sales grew 28% YoY in 2023

Average savings: 40-60% vs new units

Top-performing brands: Atlas Copco, Ingersoll Rand, Sullair

Case Study: How a Queensland Contractor Saved \$32,000 AUD

Brisbane-based RockHard Drilling bought a 2021 Atlas Copco XAS 185 JD second-hand screw diesel compressor for \$26,500 AUD (originally \$58,000 AUD new). The unit helped complete 3 remote water projects 22% under budget. "We recovered our investment in 7 months," said site manager Liam Carter.

2024 Price Guide: Second-Hand Four-Wheel Screw Compressors in Australia

Current market price per piece varies by age, condition, and brand. Always request a detailed quotation with service history. Here's what to expect:

3-5 years old: \$18,000-\$35,000 AUD

Under 2,000 engine hours: +15% premium

Refurbished units with warranty: +\$3,000-\$7,000 AUD

Hidden Costs to Watch

A \$14,000 AUD 'bargain' could cost \$5,000+ AUD in repairs if you skip these checks:

Oil analysis reports

Air-end rebuild history

Compliance with Australian Standard AS/NZS 1200

Where to Find Reliable Suppliers

Top 3 sources for wholesale screw diesel compressors:

Local Auctions: GraysOnline and Pickles often list ex-mining gear

China Import Deals: Save 20-30% via Alibaba verified suppliers

Dealer Certified Used: Atlas Copco's "Redundant Assets" program offers 6-month warranties

Government Incentives You Can't Ignore

Through June 2025, NSW offers 15% rebates (up to \$7,500 AUD) for businesses buying second-hand diesel compressors meeting Tier 4 emission standards. Similar schemes exist in WA and QLD for regional projects.

3 Questions to Ask Before Buying

"Why are you selling?" "Can I test it onsite?" "What's included in the price?" Reputable sellers like Perth-based Westside Compressors provide HD video walkthroughs and third-party inspections. Avoid sellers who refuse to share serial numbers for warranty checks.

With price lists stabilizing post-COVID, now's the time to secure quality used compressors. Start comparing quotes from at least 3 suppliers - your next project's budget depends on it.
