

# Second Hand Four-Wheel Screw Diesel Compressor for Sale in Netherlands: 2025 Price List & Buying Guide

Second Hand Four-Wheel Screw Diesel Compressor for Sale in Netherlands: 2025 Price List & Buying Guide

Are you searching for affordable, reliable second-hand four-wheel screw diesel compressors in the Netherlands? You're not alone. Industrial buyers across Rotterdam, Amsterdam, and Eindhoven face two major hurdles: unclear pricing and concerns about equipment quality. Let's break down what you need to know to make a smart purchase.

## Why Prices for Used Compressors Vary Widely (and How to Avoid Overpaying)

In 2024, the average price for a second-hand screw diesel compressor with four-wheel mobility in the Netherlands ranges between EUR8,000 and EUR25,000. Why such a big gap? A recent study by Dutch equipment marketplace MachineryHub found:

- 30% of sellers inflate prices for compressors with less than 5,000 service hours
- Compressors imported from Germany typically cost 12-15% more than local units
- Poor maintenance histories can slash resale value by up to 40%

## Real-World Example: A Buyer's EUR6,500 Mistake

A construction company in Utrecht bought a "barely used" 2020 Atlas Copco XAS 186 compressor for EUR19,000 last March. Within three months, the unit required EUR6,500 in engine repairs - costs that would've been avoidable with proper pre-purchase checks.

## Your 3-Step Buying Checklist

Follow this proven framework used by Dutch industrial auction leaders like Troostwijk Auctions:

- Verify operating hours: Diesel screw compressors averaging <math>\leq 300</math> hours/year deliver the best ROI
- Check service records: 87% of units with incomplete logs have hidden issues
- Test mobility: Four-wheel systems must handle at least 20° inclines without stability loss

## Where to Find the Best Deals in 2025

While local vendors dominate the Netherlands market, savvy buyers are increasingly sourcing from China-based exporters. A typical 2023 model like the Shanghai Powerful PDS-185S costs EUR14,500 locally but just EUR11,200 FOB Shanghai - even after EU import duties.

Top suppliers like CompAir Netherlands and Atlas Copco Benelux now offer price-match guarantees on certified used units. Request a free quotation from at least three vendors to compare:
