

Second Hand Four Wheel Screw Diesel Compressor for Sale in UAE: 2025 Price List, Quotes & ROI Guide

Second Hand Four Wheel Screw Diesel Compressor for Sale in UAE: 2025 Price List, Quotes & ROI Guide

Why UAE Businesses Choose Pre-Owned Diesel Compressors

The construction boom in Dubai and Abu Dhabi has created massive demand for affordable heavy machinery. A new four wheel screw diesel compressor can cost AED 25,000-50,000. But smart buyers are turning to certified second hand units at 40-60% discounts. Let's break down the key factors you need to know.

Current Market Prices & Trends

In 2025, average prices for used screw diesel compressors in the UAE range:

Small units (10-15 CFM): AED 9,000-14,000

Mid-sized models (20-30 CFM): AED 15,000-23,000

Heavy-duty compressors (50+ CFM): AED 25,000-35,000

Chinese brands like Sinotruk dominate the market due to spare parts availability. European models from Germany often cost 20% more but offer longer lifespans.

3 Mistakes to Avoid When Buying

A construction company in Ras Al Khaimah recently lost AED 12,000 by skipping these steps:

Not checking service history - Always demand maintenance logs

Ignoring UAE humidity - Verify corrosion-resistant coatings

Overlooking mobility - Four-wheel models must handle desert terrain

How to Get Instant Quotes

Top suppliers like Al Marwan Machinery offer WhatsApp quotation services. Share:

Required CFM capacity

Fuel efficiency needs (liters/hour)

Delivery location

Most Dubai-based dealers provide 6-month warranties on refurbished units. Compare at least 3 quotes to save AED 3,000-7,000.

ROI Calculation: New vs Used Compressors

A Sharjah contractor reported 78% cost savings by buying two second-hand screw diesel compressors instead of new:

Second Hand Four Wheel Screw Diesel Compressor for Sale in UAE: 2025 Price List, Quotes & ROI Guide

Cost Factor	New Unit	Used Unit
Purchase Price	AED 38,000	AED 16,500
3-Year Maintenance	AED 4,200	AED 5,800
Total	AED 42,200	AED 22,300

With UAE's VAT-free zones and flexible payment plans, many suppliers now offer rent-to-own options. Always verify if units meet Dubai Municipality noise regulations (below 75 dB).

Where to Find Reliable Suppliers

Industrial Area 13 in Sharjah hosts 18+ machinery traders. For online buyers, TradeKey.ae shows real-time inventories of four wheel screw diesel compressors across the Emirates. Look for suppliers with ISO 9001 certification and onsite testing facilities.

The UAE's oil & gas sector expects 6% growth in 2025 - driving up demand for mobile compressors. Act now to secure quality used units before summer price hikes. Pro tip: Negotiate better deals by offering cash payments during Ramadan trading hours.
