

Second Hand Four Wheel Screw Diesel Compressor in Jordan: 2025 Price List, Quotes & Buyer's Guide

Second Hand Four Wheel Screw Diesel Compressor in Jordan: 2025 Price List, Quotes & Buyer's Guide

Looking for second-hand four wheel screw diesel compressor prices in Jordan? You're not alone. With construction projects booming in Amman and mining operations expanding near Aqaba, demand for robust, mobile air compressors has surged 23% since 2022. But here's the kicker: brand-new models from Germany or China can cost between 18,000-35,000 JOD. That's why smart buyers are turning to quality used equipment priced at 10,000-25,000 JOD.

Why Jordan's Market Demands Affordable Options

Construction accounts for 14% of Jordan's GDP, yet 68% of contractors operate on tight budgets. Last year, a Ma'an-based drilling company saved 19,000 JOD by purchasing two used screw diesel compressors instead of new units. But many buyers hit roadblocks:

- Unknown maintenance history causing breakdowns
- Hidden repair costs (up to 40% of initial price)
- Difficulty finding parts for older models

The 2025 Price Reality Check

Current market data shows these average prices for second-hand compressors in Jordan:

- 5-7 year-old Atlas Copco models: 22,000-25,000 JOD
- Chinese-made units (3-5 years): 10,000-15,000 JOD
- Refurbished Ingersoll Rand units: 17,500-21,000 JOD

Smart Buying Strategies for Jordanian Buyers

Aqaba Port Logistics reported 310 used compressors imported last quarter - but 27% needed immediate repairs. Follow this PAS formula:

Problem -> Solution Blueprint

Case Study: Amman Construction Co. purchased a 2019 XCMG compressor for 14,500 JOD. After 3 months, hydraulic issues cost them 3,200 JOD in repairs. Their solution? Now they:

- Request OEM maintenance records

Second Hand Four Wheel Screw Diesel Compressor in Jordan: 2025 Price List, Quotes & Buyer's Guide

Test equipment under full load for 2+ hours
Use local mechanics for pre-purchase inspections

Pro Tip: Ask suppliers for ROI calculations. A properly maintained used compressor can deliver 80% of new unit performance at 55% cost.

Where to Find Reliable Deals in Jordan
Top-rated suppliers combine these features:

- 6+ month warranty on critical components
- Transparent equipment history reports
- On-site demonstration capability

Al-Hussein Industrial Machinery recently sold 17 certified four wheel screw compressors to Jordanian quarries at 12% below market average. Meanwhile, China-based suppliers like Shanghai HeavyMach offer FOB prices starting at \$9,800 - but factor in 18% import taxes.

As Jordan's government pushes its 2025 Infrastructure Plan, demand for mobile compressors keeps rising. Whether you need equipment for well-drilling in Irbid or tunnel projects in Ajloun, comparing price quotes from 3+ suppliers ensures you'll maximize value.
