

Second Hand Piston Diesel Air Compressor Price in Kazakhstan 2024: Cost List, Quotation & Buying Guide

Second Hand Piston Diesel Air Compressor Price in Kazakhstan 2024: Cost List, Quotation & Buying Guide

Why Kazakhstan Buyers Seek Affordable Industrial Solutions

Construction and mining projects in Kazakhstan grew by 7.5% in 2023, pushing demand for cost-effective equipment. A recycled second hand piston diesel air compressor now sells for 35-50% less than new units in Almaty and Nur-Sultan. But 62% of buyers struggle to verify machine conditions or negotiate fair price per piece with dealers.

Market Trends Driving Second Hand Sales

New Chinese-made piston compressors rose 18% in cost due to raw material shortages

German refurbished models dominate 40% of Kazakhstan's used equipment imports

Government incentives for green industry upgrades until 2026

Real Price Ranges & ROI Calculations

A 2023 survey shows second hand diesel air compressor price in Kazakhstan varies by horsepower:

- o 15-30 HP: \$2,800-\$4,200 (used)
- o 50-75 HP: \$6,500-\$9,000 (factory-reconditioned)

Compare this to new Atlas Copco models at \$12,000+ for 50HP units. Nursultan Mining LLP saved \$19,000/year using three second-hand compressors from Turkish suppliers. Their ROI came in 7 months.

How to Avoid Scams: 3-Step Buying Guide

Request ISO-certified quotation with oil analysis reports

Confirm local service support in Astana/Aktobe regions

Compare total cost including transport (avg. \$450 from China)

Hot Deals: Wholesale Supplier Alert

Ural Machinery Exchange offers a limited batch of German-refurbished 40HP piston compressors at \$5,200/unit (FOB Almaty) until August 2024. These units include 6-month warranties - rare in Kazakhstan's used equipment market.

Immediate Action Steps

Visit verified platforms like KzMachineryHub for updated price lists. Book equipment inspections before
