

Second Hand Piston Diesel Air Compressor for Sale in Jordan 2024: Price List, Supplier Deals & ROI Guide

Second Hand Piston Diesel Air Compressor for Sale in Jordan 2024: Price List, Supplier Deals & ROI Guide

Why Businesses in Jordan Are Switching to Second-Hand Compressors

Need reliable compressed air solutions without breaking the bank? You're not alone. Over 68% of Jordanian construction and mining firms now prioritize cost-effective equipment like second-hand piston diesel air compressors. New units from Europe or China can cost \$3,500-\$8,000, but used models in Jordan sell for \$1,200-\$4,500 - a 50-70% saving.

The Rising Demand for Affordable Solutions

Jordan's construction sector grew 4.2% in 2023 (Central Bank of Jordan data), yet fuel costs jumped 18%. This pushes contractors to hunt for durable, fuel-efficient compressors. A recent case study showed a quarry operator near Amman slashed operational costs by 40% after switching to a refurbished Chinese-made diesel piston compressor priced at \$2,300.

Key Factors Driving Second-Hand Compressor Prices in Jordan

- Origin: European models (e.g., Atlas Copco) cost 20-35% more than Chinese brands like Hongwuhuan
- Capacity: 5-10 CFM units dominate 75% of local sales
- Condition: Fully refurbished models with warranties cost 15-25% more than "as-is" units

How to Get the Best Price Quotes

Top Amman suppliers like Al-Madina Heavy Equipment offer price matching on identical compressor specs. For a 7CFM piston diesel compressor, expect quotes between:

- \$1,499 (2018 Chinese model, 500 hours)
- \$3,100 (2021 German-made unit with turbocharger)

Tip: Ask suppliers about ROI calculators - many can project your fuel savings over 3-5 years.

Smart Buying Strategies for Jordanian Buyers

When Zain Construction needed backup compressors for their Petra highway project, they negotiated a 15% bulk discount on three 10CFM units. Their secret? Comparing price per CFM across vendors:

- o Local dealer: \$230/CFM
- o Direct import: \$180/CFM (with 3-week lead time)

Don't Miss These Government Incentives

Jordan's 2023 Investment Law offers 10% tax rebates for equipment upgrades in designated development
