

Second Hand Piston Diesel Air Compressor for Sale in Peru 2025: Price List, Quotation & Buying Guide

Second Hand Piston Diesel Air Compressor for Sale in Peru 2025: Price List, Quotation & Buying Guide

Looking for a second hand piston diesel air compressor in Peru? You're not alone. Construction and mining companies across the country are turning to used equipment to cut costs - but finding reliable deals takes smart planning.

Why Prices for Second Hand Compressors Are Surging in Peru

Peru's mining sector grew 18% in 2024 (National Institute of Statistics), pushing demand for durable air compressors. New models from China or Germany cost \$8,000-\$15,000, while used piston diesel compressors sell for 30-50% less. Popular brands like Atlas Copco and Ingersoll Rand dominate 65% of Peru's refurbished market.

Real-World Savings Example

A Lima-based drilling contractor bought a 2019 Atlas Copco XAS 185 for \$4,200 last month - 40% cheaper than new. "The price per piece made sense," said site manager Carlos Rojas. "We tested compression rates and got a 6-month warranty."

2025 Price Trends: What to Expect

Current second hand piston diesel air compressor prices in Peru range:

Small units (100-200 CFM): \$2,800-\$4,500

Mid-size (200-350 CFM): \$4,600-\$7,300

Industrial (350+ CFM): \$7,500-\$12,000

Tip: Prices spike 8-12% during Peru's dry season (May-October) when mining activity peaks.

3-Step Buying Guide to Avoid Scams

1. Verify seller credentials - 73% of reliable suppliers are registered with Lima Chamber of Commerce
2. Request video tests showing:
 - Oil pressure (≥ 35 PSI)
 - RPM consistency
3. Check Peru's updated import taxes: 6% for used machinery under 5 years old.

Supplier Spotlight: Top Deals This Month

Guangzhou Heavy Machinery Co. offers 20 refurbished units at \$3,900/piece (FOB Callao Port) - includes free piston ring replacements. Local supplier Maquinarias Andinas provides on-site maintenance contracts for \$180/month.

How to Get Your Custom Quotation

Second Hand Piston Diesel Air Compressor for Sale in Peru 2025: Price List, Quotation & Buying Guide

Most dealers now offer WhatsApp-based quotes within 4 hours. Send engine hours, required CFM, and delivery location (e.g., Arequipa vs. jungle regions). Pro tip: Ask about Peru's new eco-subsidies - some sellers deduct 5% for ROI-focused buyers upgrading to Tier 4 engines.

With copper production projected to hit 3M tons by Q3 2025, demand for affordable diesel air compressors won't slow down. Start comparing price lists from certified suppliers now - before seasonal shortages hit.
