

# Second Hand Piston Electric Air Compressor for Sale in Norway: 2025 Price List, Quotation & Buying Guide

Second Hand Piston Electric Air Compressor for Sale in Norway: 2025 Price List, Quotation & Buying Guide

Looking for an affordable second hand piston electric air compressor in Norway? You're not alone. Over 65% of industrial buyers in Scandinavia now prioritize refurbished machinery to cut costs without sacrificing productivity. Let's break down what you need to know about prices, suppliers, and smart buying strategies.

## Why Norway's Market Demands Second Hand Compressors

Norway's strict emissions policies and high electricity prices (EUR0.18-0.25 per kWh) make energy-efficient piston electric air compressors hot commodities. A 2024 Statista report shows used industrial equipment sales grew 22% YoY - the fastest in Europe.

## The Real Cost of New vs. Refurbished Units

A brand-new 7.5 kW piston compressor costs EUR3,200-EUR4,500 in Norway. But identical second hand models sell for:

EUR1,100-EUR1,800 (lightly used, 15 kW), consider Polish or Dutch wholesalers offering container deals with 5+ units. Remember: A detailed quotation should include VAT, shipping from EU hubs, and CE recertification costs. Prices typically dip 12-18% between March-June as factories upgrade equipment.

With Norway's manufacturing output projected to grow 4.7% in 2025, demand for reliable second hand piston electric air compressors will keep rising. Start your supplier negotiations today - the best deals vanish faster than fjord mist in July.
